FRIDAY, FEBRUARY 28, 1930

Jack Mitchell Gives Facts On Big Dam

Says Project is Second in Importance to Results Achieved

Will Make Nevada a Foremost State in Matter of Agriculture

Jack Mitchell, formerly of this city, but now of Las Vegas, N.M., came over Friday for several days visit with his family. Jack is a feature writer and news reporter on the Las Vegas Evening Review-Journal, and was one of the men to cover the Maurice Graham story for his paper, which furnished releases to the AP and UP news services. He arrived here in a Travelair plane piloted by Ernest Longbrake, a well known air pioneer.

Mr. Mitchell lived in Sierra Madre for ten years, coming here shortly after his discharge from the service. For a number of years he was on the Pasadena Star-News, and is also well known as a writer of verse, his book "My Pepper Tree," gaining considerable recognition.

The following story of the long search for Graham, and highlights on Boulder Dam is written by Mr. Mitchell.

By JACK MITCHELL
Your correspondent has just returned to Sierra Madre from Las Vegas after a period spent in the latter city during last March with a short interval spent in Reno as telegraph editor of the Journal.

During the past month I have been assigned to the search of Maury Graham, missing Western Air Express pilot, in the western theater of the search at Caliente, Nevada; by my newspaper, the Las Vegas Review Journal.

Every bit of news that you read in the metropolitan papers was disseminated by Bob Denton, publicity man for the Union Pacific railroad, and the Review Journal, with me as its representative. We were the only two newspapermen on the job in the Caliente theater of the greatest search ever undertaken for a lone pilot.

We worked in conjunction with Jimmie James and Fred Kelly No. 1, whose plane cracked up and burned Tuesday morning in Utah. However, after numerous trips through and over Bristol, Panaca, Yokem Ranch, and surrounding territory we were unable to find any trace of Maury, and were forced to return. At one time there were thirty-two planes mobilized at Las Vegas and constantly on the wing in search of Graham.

While we all hope for the eventual finding of the intrepid birdman, perhaps the most interesting subject to Sierra Madrans would be the Boulder Dam, and I believe I am in a position to give you authentic facts that you will not be able to gather, without an intensive investigation yourself, from any other source.

Most persons believe that the building of the dam itself is the great project, but compared with the results it will entail in other great work it is a mere bagatelle. True, the dam is the keystone of it all, and hence starting with the great projects which lie behind it, I will briefly and authentically describe what is proposed by Dr. Meade, heading the engineering end, and Dr. Wilbur, Secretary of the Interior.

The dam is to be 710 feet high. The "overslump" of water, after being used for hydro-generation, will be carried through solid rock by three tunnels, each one of which will be three miles long, fifty feet wide, or individually as large as the Hudson River tube.

A permanent city to house 5000 workmen and their families will be built at the top of the Black Canyon, and workmen will be carried up and down to their duties by three large elevators, each of which will span a vertical distance higher than the Woolworth Tower.

But (and here is the really big development which even most Nevadans do not stop to consider) the dam will create a lake 125 miles long, and 25 miles wide. And this lake will be the largest body of fresh water in the west. Already options for franchises for huge steamship lines are being contemplated!

The development of this lake means the building of scores of villas and resorts along its banks, and at the dam, or rather below it, giant industries will whir in the manufacture of a hundred various commodities of trade. These, of course, mean distribution points.

Before this lake can be built, and before the turbulent waters of the Colorado River can be turned into the basin, more than 5,000,000 yards of silt must be removed, bastions must be built, solid mountains of rock must be blown up and laid again in needed places.

Last but not least is the certain effect this immense body of (Continued on Page Nine)

Rev. Pritchard To Address Boy Scouts Tonight

Rev. Arthur O. Pritchard will address Troop 2, Sierra Madre Boy Scouts of America, at a meeting to be held at the Congregational Church social hall tonight, Friday. His subject will be, "Washington, a Good Scout." Parents are urged to make an effort to see that their boys who are members of the local troops attend the meetings regularly. Busy men of the community are giving their time without remuneration to this work and the least the Scouts can do is to show their appreciation by turning out regularly and taking interest in the meetings, it is pointed out.

Mr. and Mrs. Elmer A. Green and family, Hammond, Anna and Robert, Miss Edna R. Green and Mr. and Mrs. N. B. Hutton, motored to Palm Springs Saturday, where they camped over night, returning Sunday.

Fire Alarms Should Go to Phone Office

Fire Calls Should Be Given to Central Instead of Calling City Hall

A fire occurring shortly after 7 o'clock Thursday evening at the home of L. B. Potts, 468 West Grand View, destroyed the roof of the house and caused damage estimated by Chief W. D. Richards at \$300. The property belongs to J. W. Jamison of 481 West Highland.

The blaze started from the vent shaft of a gas water heater and spread rapidly, fanned by a breeze. The fireboys arrived in good time and succeeded in removing all the furniture, but the truck was somewhat delayed by the fact that the street on Grand View is orn up for installing water mains. Still further delay was caused by the fact that there is no fire hydrant in the middle of that block and the truck had to be taken on past the burning house, hook on to the hydrant at the corner, and then come back again to the fire.

Chief Richards takes this occasion to remind Sierra Madre residents that it will save time in case of fire if they will report it to the telephone operator instead of to the city hall, because the siren can be operated just as well from the telephone office, and it is necessary for the fire department to call back to the phone operator in order that she may answer inquiries of the volunteer firemen who are scattered all over the city and always call there to locate the fire.

Furthermore, the Chief remarks that if folks would think as seriously about helping the fireboys out on that page advertisement to be placed in the state firemen's magazine, as they do about calling for help in cases such as this one last night, they would have no trouble raising the necessary sum of \$100.

Retailers to Talk Holiday Observance

Interested Citizens Given an Opportunity to Voice Sentiment

Matters of vital importance to every merchant in this city will be brought up at the next meeting of the Sierra Madre Retail Merchants Association to be held Monday evening, March 10, at the Park Club House, according to Robert Davies, president.

The chief topic for discussion and vote will be the official closing dates to be observed as holidays here. There has been some question as to whether Armistice Day should be included in this list and it is requested that all Sierra Madre merchants make known their opinion on this matter.

Those who will be unable to attend the meeting that night may use the following form for convenience in casting their vote:

Shall We Close Armistice Day
☐ Yes ☐ No
Name.....

These ballots may be turned in to the Sierra Madre News office or given to Robert Davies at Solary and Davis Grocery.

Then there's the middle generation—the one that raises the younger generation for the older generation to worry over.—Detroit News.

Mt. Wilson Trail Climb Date Near

Trail Hounds Have Eyes Set On March 15, When Race is Run

Chamber of Commerce Will Aid Hartman in Staging Event

As the date for the big Mt. Wilson climb draws nearer, an added interest in the bunion-clasico is seen on the part of athletes from all parts of Los Angeles county. Entry blanks are being filled and forwarded to Phil Hartman at the rate of several each day, and it is a foregone conclusion that nearly a hundred entrants will be ready to start the grind two weeks from Saturday.

The start will be made in front of the News office just opposite the Pacific Electric station, and the first contingent of the heel-and-toe experts will begin the long grind to the clouds at six o'clock in the morning. Starters will be checked out singly at intervals of about ten minutes, this being done to avoid contests on the sharp, precipitous curves on the trail.

Local business men will cooperate with Mr. Hartman in handling the starters, who will be checked out and checked in, individually.

Although Sierra Madre will not declare an official holiday for the day, the streets will be decorated with flags and streamers and an extra effort will be made to make visitors in the city feel "at home."

Down-town newspapers are giving the race considerable publicity and a great crowd of visitors is expected throughout the day.

The influx will be greatly augmented if the Wistaria Fete is officially opened on that day, as now seems probable, making it a day long to be remembered in local annals.

Post-War Worker To Speak Before Bethany Society

An unusually well-known speaker has been secured for the next monthly meeting of the Bethany Chapel Missionary Society, to be held in the auditorium next Tuesday, from 10 to 3. This speaker is Mrs. Ralph Norton, who, with her husband, has done remarkable post-war work in Europe, centralizing in Belgium. Their work, evangelistic in nature, started among the soldiers in London, and has spread throughout Europe, of which Mr. and Mrs. Norton claim Belgium is the key. The fame of their success, as well as their writings published in this country has given them a reputation which always assures a large audience. Mrs. Norton will speak at 2 o'clock, following the devotional hour in charge of Mrs. J. O. Smith.

In the morning following the business meeting with Mrs. John Lowe, president, in the chair, there will be a discussion of Current Events by Mrs. C. E. Trimble. At noon a hot luncheon will be served, to which all are cordially invited.

These monthly meetings, attended by many townspeople, whether members of Bethany Church or otherwise, have outgrown the Chapel hall, and will hereafter be held in the church auditorium. All are most welcome.

LEAGUE OF YOUTH SPECIAL SERVICES

Next Sunday evening, March 2, at 6:30, the League of Youth members of the Congregational Church are in for a real treat.

Mr. Hattersley, a psychologist of P. J. C. fame, has finally been obtained to talk to the young people here. Everyone interested is invited to come. The meeting will begin promptly at 6:30 in the Chapel, as usual.

Lawrence R. Goshorn, new editor of the Sierra Madre News, has taken Apartment 8 at Bella Vista Terrace.

Students Make Trip to Study Animal Life

The biology classes of the Woodrow Wilson junior high school accompanied by the biology teachers, W. E. Pickett and Mrs. M. L. Jannoch, enjoyed a trip to Luna Park and Portuguese Bend, Feb. 21. At the park the train-ers of the lions put on a special performance for the students. At Portuguese Bend, the classes gathered starfish, crabs, sea urchins and many other sea animals to preserve for projects. The students are studying the animal kingdom and took this excursion in order to become acquainted with all the types of life.

Walter Railsback Passes Away After Only Short Illness

Private funeral services were held Tuesday morning, at 10:30, from the Ray A. Grant funeral parlors, for Walter E. Railsback, who died Sunday afternoon in Los Angeles, after a brief illness.

Mr. Railsback was formerly of Kansas City and was a graduate of the Kansas University, College of Law. He came to California 25 years ago. Mr. Railsback was nearly 60 years of age, and was a resident of Sierra Madre for about eight years.

He is survived by his father, J. T. Railsback, who returned last Thursday to this city, following a year's stay in Kansas City; two brothers and a sister, John Railsback, of Los Angeles, Ted Railsback and Mrs. Agnes Tyree of Sierra Madre, and two brothers in Kansas City. His mother passed away October, 1928.

Firemen of Sierra Madre 'Craving' Aid

Little Notice Paid to Previous Appeal for Funds to Pay For Advertisement

Some weeks ago, W. D. Richards, chief of the Sierra Madre Fire Department, through the Sierra Madre News, made an appeal to business men and citizens here for donations to cover the cost of an advertisement to appear in a forthcoming edition of the California Fireman, a magazine devoted to the interests of firemen throughout the state.

The magazine is supported by advertising matter which is donated by merchants in various towns of the state, and according to Chief Richards, it is a non-profit publication, with no other source of revenue.

A page advertisement in the magazine is listed at \$100 and the local firemen are anxious to "do their bit" as a matter of pride, rather than from any idea that such an advertisement will bring an influx of shoppers into the city. Consequently they are quite anxious that the sum of \$100 be collected and forwarded at an early date.

The Chamber of Commerce recently set aside \$15 to go into the fund, and the balance will have to be raised among local business men—or by the firemen themselves.

No organization in the city has made such a splendid record for efficient and willing service and practically everyone should be willing to "show down" in an effort to help the local men in this effort. Subscriptions will be received by Chief Richards or at the News office.

Local Student Heads Staff of Junior Hi Paper

The staff of the Wilsonian, the Woodrow Wilson school paper, was elected by members of the 10-2 English class recently, with the following result: Editor-in-chief, Michi Nomura; assistant editor, George Goodhue; feature editor, Elizabeth Spencer; girls' sport editor, Bernita Sandstoe; exchange editor, Hazel Kilgore; boys' sport editor, James Gabriel; business manager, Max Sheanin; club editor, Virginia Fennell; elementary news editor, Juanita Baxter; joke editor, Frances Baxter; art editor, Cynthia Hull; local news editors, Treva Scott and Eileen Walrod; printing editors, Albert Blanchard and Herbert Norton. Only one class will handle the editing of the Wilsonian this semester, whereas last semester two classes edited the paper.

Special Series of Evening Services At Local Church

As the first of the series of special evening services, the Junior Choir and Orchestra of the Congregational Church will give a musical service Sunday.

The Junior Choir, under the direction of Mrs. D. C. Ashmore and Mrs. G. B. Mordridge, sings each month at the morning service of the third Sunday. The young people are proving a great help and are much enjoyed.

The Orchestra is a standing institution of the Sunday school, going back several years. Under the leadership of Gustav Richter it has reached a high grade of efficiency. The program for Sunday evening includes: Chorus, "Praise Ye the Father," Gounod; Anthem, "O Come to My Heart, Lord Jesus," Ambrose, with incidental solo by Virginia Roess; solo, "Not a Sparrow Faleth," Abt, Alice Corum; solo, "Arrangement of All Through the Night," Donald Barnfather.

Bacon may have written most of Shakespeare's plays, but Bill seems to have brought home the bacon.—Miami News.

Mrs. McKee Gives Dinner For Workers

Quaint German Custom Used Upon Completion of House

Men Praise Hospitality and Spirit of Amiable Hostess

One of the most unique and delightful affairs ever held in Sierra Madre was the elaborate turkey and ham dinner given last Saturday afternoon by Mrs. W. T. McKee whose beautiful new Spanish type home on West Highland has just been completed.

The dinner was given to all the men who had assisted in the building of the house, which Mrs. McKee explains, is a German custom of long standing. There were more than thirty men present, each workman who had contributed in any manner to this handsome structure, from the architect, Clinton Nourse and the general contractor, Frank Hildebrandt, having been bidden to the feast.

The house was beautifully decorated with sweet peas, roses, spring flowers, crotonasters and ferns. Mrs. McKee, the hostess, who graciously met each guest at the door, carried a bouquet of sweet peas. Since the occasion happened to fall on Washington's birthday, the patriotic motif was carried out in the table decorations and the colors of the flowers used throughout.

Another German custom was carried out, which consisted in the placing of a fir tree at each chimney on top of the house. This represents health, prosperity and long life for the occupants of the home.

Following the bounteous dinner, Mrs. McKee gave a short talk in which she pointed out the importance of the real workmen in putting up a building and expressed her appreciation of the spirit and skill of those who had helped on her home. Harvey Steinberger, who did the cement work, was then called upon to act as toastmaster, which role he carried off in a very able manner.

Each person was called upon to introduce himself and tell what his part had been in building the house. The men were unanimous in their expressions of praise for Mrs. McKee, who, they stated, was at all times a most amiable employer for whom it was a real pleasure to give their very best work.

Among the few other than the builders who were present were Father Weber, who invoked the blessing, Joseph L. Asbury, representing the Sierra Madre News, S. R. G. Twycross, Walter Shatford of Monrovia and Joseph F. McNulty of Los Angeles.

The ladies who were co-hostesses with Mrs. McKee included Mrs. Walter Shatford of Monrovia, Mrs. Sidney Shatford of Halifax, Nova Scotia, Mrs. White of Kansas City, Mrs. Bagley of Chicago, Calif., Mrs. Clinton Nourse, Mrs. Carl Potter, Miss Leah Fletcher, all of Sierra Madre, and Miss Charlotte Harvey of Los Angeles.

Those present who helped with the construction of the house were Clinton Nourse, Frank D. Sible, John Swift, Frank M. Wildebrandt, Frank E. Cox, N. H. Dilley, L. E. Downey, Fred Werks, W. J. Ropp, J. C. Rogers, H. H. Steinberger, Waverly Pratt, J. C. Thorndyke, Joe Olsen, J. Anderson, Val Miller, W. H. Hawkins, W. L. Hibbs, C. C. Noshor, P. C. Kortkamp, Adolph F. Kelterborn and Mr. Jorkinson.

Field representatives of the State Compensation Insurance Fund are to attend their annual conferences in San Francisco on Feb. 28, 29 and March 1, and in Los Angeles on March 6, 7 and 8. The new rating manual, effective March 1, and developments in the underwriting of compensation insurance will be discussed. Manager Frank J. Creede announces that the total premiums written during 1929, were in excess of \$7,650,000, an increase of more than \$650,000 over 1928.

Auxiliary Gives Thanks for Help In Package Party

The Ladies Auxiliary of Temple Beth Israel of Sierra Madre wishes to thank all the local merchants who so generously contributed to their package party held last Sunday evening at the Masonic Temple.

They desire also to express their appreciation to their friends for the splendid cooperation in making the party the great success that it was. Mrs. Gorchakoff, who presided at the affair, deserves no little credit for the splendid entertainment. Thanks are extended to Mr. Wolfson, Oscar Blanco and to Mr. and Mrs. Schaffer for their part in the program.

Local Girl Reserves Take Part in Program in Pasadena

The local Congregational Girl Reserves had part in a most interesting program at Memorial Park, Sunday afternoon. The girls that took part in singing were June Lacey, Lorraine Petzel, Olive Corum, Alice Lalone. Miss Marguerite Lalone represented the Pasadena Girl Reserve. Advisors gave a patriotic reading "America First."

Congregational Girl Reserves sent three delegates to the twelfth Annual Girl Reserve Conference in Riverside. There were 550 girls at the conference. Miss Cynthia Hull, Miss Sara Jane Griebonow and Miss Marguerite Lalone, advisor, were delegates.

Perhaps we could handle the liquor purchaser under the statutes which forbid games of chance.—Brunswick Pilot.

City Places More Men on Salary Basis

Policy to Take Effect On March 1, Believed Beneficial

City employees now working on an hourly basis were placed Wednesday night by action of the city council, on monthly salaries, effective March 1.

These salary changes, which it is considered will react for benefit to the city, were presented by Councilman Ralph W. Stewart, upon recommendation of City Engineer Earl J. Lynde, who is also superintendent of water and streets.

Those affected by the change are repair men of the water department, who will now receive a monthly salary of \$110 each; the water department foreman, who will receive \$152.50; the pump man, \$130, and the operating supervisor, \$160. The street department truck driver, tractor operator and grader were allowed \$110 per month.

January warrants were allowed in the amount of \$1592.90. The denial by the city planning commission of the request of Miss Clara M. Larjar to remove a eucalyptus tree at the corner of her property, North Baldwin and Carter, was upheld by the council. A communication from the planning commission recommended that, in as much as the tree is in sound condition the request be denied, removal being against the policy of the commission.

The two-hour parking ordinance for the business district, requested at a former meeting by Robert Davies, president of the Retail Merchants Association, was referred back to the association for further information.

Councilman Reavis announced, for the finance committee, the report not yet ready for the voting ordinance to be published for the April election.

H. Clay Reavis acted as mayor in the absence of Mayor Al S. Myers.

Robbed at Point of Gun By Mexican

Bandit Threatens Death to Victim If Alarm Is Given

Held up at the point of a revolver robbed of \$28 in currency, and so frightened by a threat of death that she did not report the robbery until the next day, was the experience of Mrs. R. Gorchakoff of Los Angeles when she came here last Sunday night to attend a package party given by the Ladies Auxiliary of Temple Beth Israel at the Masonic Temple on East Central Avenue.

Just as Mrs. Gorchakoff started to enter the temple, a man whom she described as a Mexican about 22 years old, who used good English, approached her and forced her to step over behind an automobile at the point of a revolver. He then demanded five \$5 bills and three \$1 bills. "Don't you dare say anything about this, or I will kill you," was his parting injunction as he released her arm.

Mrs. Gorchakoff then went into the Masonic Temple, acted as chairman of the party, and did not say a word about it until the next day when Mr. Platt called her on the phone about another matter and she then told him of the robbery.

Mr. Platt reported the matter to the police but no clues have been found after such a long silence. The man was described as being dressed in a dark blue suit, a gray overcoat, and wearing a light gray hat.

Sierra Madre Art Exhibit Opens Mar. 8

Many Splendid Pictures to Be Shown at Local City Hall

Sierra Madre Artists Well Known in Art Circles in Southland

A cordial invitation is extended to all residents of Sierra Madre and their friends to attend the opening of the Little Gallery of Sierra Madre in the city hall, on March 8 at 8 p. m.

A reception for the local artists whose work will be exhibited during March and April will be held the opening night. It will be the policy of the committee, of which Mrs. Fred Griebonow is chairman, to change the exhibit from time to time, thereby adding interest and variety, and to make this community known, culturally, in the manner it deserves.

Sierra Madre has long been sought out by people of culture and is the home of a number of well known artists of ability. Among those exhibiting are the following:

LLOYD L. KREBS
Lloyd L. Krebs is well known as a physician, but in his waiting-room is an exhibit of his paintings where sick and discouraged patients find themselves under the soothing influence of beautiful pictures, while awaiting their turn with this busy man—work at which he is pleased to call his avocation during his playtime. He studied with Jean Mannheim prior to beginning the study of medicine and has long been associated with him. Dr. Krebs has exhibited both in the East and West.

BEATRICE WARD
Beatrice Ward is the daughter of Mr. and Mrs. Irving Ward of this city. She studied art at Stieckney Institute under Mannheim, winning a scholarship there for two successive years. She was also offered a scholarship at Otis Art Institute where she studied under Richard Miller from the Art Student's League of New York. Employed by Sid Grauman, she painted portraits of all the movie stars for the lobbies of all his theatres. She is now freelancing in New York City.

ELLA SHEPARD BUSH
Ella Shepard Bush has long stood at the head of her profession of miniature painting. She holds a life membership in the Students Art League of New York. She has been president of the Miniature Painters Association and as such has arranged many exhibits of miniatures. Her charming work has been exhibited and won many prizes all over this part of the country, as well as in other countries. The Washington State Flower was chosen after her beautiful painting of rhododendrons was exhibited in competition with many others. Her studio here has been on the class room and she the inspiration of many of our younger artists.

BRUCE RUSSELL
Bruce Russell, whose timely cartoons appear often on the front page of the Los Angeles Times, is a graduate of the University of Los Angeles, majoring in art. He has been with the Los Angeles Times for the past two years and before that on the Evening Herald as cartoonist. He lives with his parents on West Live Oak.

LEONARD BORMAN
Leonard Borman came to Sierra Madre ten years ago from Canada. He was wounded during the World War and began his painting while in the hospital. As his right arm was in a cast he used his left hand for drawing and as a result he is ambidextrous in his work. Six years ago he built his studio on West Central. His work is versatile, including portraits, landscapes, both oil and water color, and etchings, dry-point and gold and silver point. He studied at Chicago Art Institute under George Bellows and Joseph Pennell.

H. I. HAWKHURST
While Mr. Hawkhurst has been better known locally as an inventor, the older residents of Sierra Madre vividly recall his work as cartoonist of the Los Angeles Times. Mr. Hawkhurst's editorials and cartoons during the Bryan-Roosevelt campaign were syndicated statewide and were a leading factor in bringing about the direct primary.

Previous to his coming south from San Francisco some 25 years ago, Mr. Hawkhurst started his career as an artist in Mark Hopkins Institute of Art. From there he went on the San Francisco Call and other San Francisco papers. Later, with Mr. George Parmenter, now manager of the art department of (Continued on Page Four)

Society and Personal

Mrs. J. L. Asbury, in her "swan song" wishes to thank the merchants and "folks" of Sierra Madre generally for their kindly spirit of cooperation during her all-too-brief soliciting of local and society notes for the Sierra Madre News. In all instances, Mrs. Asbury has been met with the most courteous consideration, and it is with deep regret that she relinquishes her duties to other hands, albeit more experienced. The friendships formed during this period will ever be treasured.

COLONIAL TEA UNIQUE AND INTERESTING

In one of the first four farm houses in Sierra Madre, a fitting setting for the antiques of Colonial days, mellowed with age, the Colonial Tea at the H. W. Glidden home, 305 West Laurel, was an extremely successful affair.

Nearly 75 guests attended, viewing an enviable collection of antiques dating back to a 1650 flatiron, and the charming rooms were filled with rare coverlets, hand-made and hand-woven patchwork quilts, chairs of several interesting periods, the oldest, from Connecticut, being 250 years old, a spinning wheel, pewter, snuff-boxes, a doll, tapestries, shawls, whale-oil lamps, warming pan, candle holders. Attractive catalogues bore covers of colonial figures in silhouette.

Many ladies, members of the Woman's Society of the Congregational Church, acting as hostesses throughout the rooms, were gownned in costumes of the colonial period. Mrs. Myrtle Hill wore one of the most interesting, an old ivory Empress Josephine model, which was actually worn by Mrs. Langdon, wife of the governor of New Hampshire, when she was presented at the court of King George III of England.

Mrs. Arthur O. Pritchard was lovely in her mother's wedding gown of white mull and ribbon with a fishu drape.

Mrs. Elmer A. Green was gownned in a plum colored silk and velvet with gold stone buttons, a part of her mother's trousseau.

Mrs. E. E. Bacon wore a gown of striped green silk, belonging to an aunt of the 1860 hoop-skirt period. Mrs. J. M. Campbell and Mrs. Wm. Middough impersonated George Washington. Mrs. R. S. Corlett, Mrs. W. S. Hull, Mrs. Rudolph Hartman, Mrs. Arthur Evans, Mrs. J. Milton Steinberger, Mrs. R. M. Finlayson, Miss Miller, Mrs. Nestor Young, Mrs. Donald Ashmore as Priscilla, Mrs. Glidden, also displayed fashions of the period and charmingly received and entertained the guests.

Mrs. J. Milton Steinberger, accompanied by Mrs. Myrtle Hill, presented two French Proverbs in Porcelain by Austin Dobson.

The tea table, which was laid with a homespun cover, was decorated with low vases of jonquils, chrysids and white sweet peas, centered with antique Sheffield plate candelabra with tall white candles. Tea was poured by Mrs. R. S. Corlett and Mrs. A. O. Pritchard.

Rudolph Hartman made several interesting photographic studies of the group, which are on display at the drug store.

NEWCOMERS WELCOMED TO BROWNING CIRCLE

The Browning Reading Circle of Sierra Madre will meet as usual on the first Sunday of the month, March 2nd, at 3:30 p. m. Miss Ella Shepard Bush will again be the hostess, 225 West Laurel Avenue, and again she invites all persons interested to be present.

Mrs. Bertha Lovewell Dickinson, Ph.D., will continue her delightful, informative talks on "Paracelsus." As Dr. Dickinson always gives a short review of the story, it is easy to follow her scholarly interpretation of the poem, whether one has been present at former meetings or not. It is a privilege for residents of Sierra Madre to have Dr. Dickinson's lectures given in this city. Miss Bush is glad to welcome newcomers to the Circle.

DRAMA CONFERENCE MARCH 5th

Mrs. J. Milton Steinberger announces that the Drama Conference of the Federation of Women's Clubs will meet March 5th at 10 o'clock. All club members are invited to attend. A 20 per cent discount on matinee tickets can be secured for the "Bill of Divorcement." Civic Repertory Theatre (Music Box), Hollywood.

Last Friday fourteen Sierra Madre ladies attended the conference on "Better Movies," which selects worthwhile pictures from previews. Douglas Shearer, Norma's brother, sound technician, spoke at the morning session. A reproduction was given from a Fox grandeur film, the new "depth" film. The new screen will be 2 1/2 times larger than the present to give depth. The present film is 1 millimeter. The new film is 2 1/2 millimeters.

"The Rogue Song," current at Grauman's Chinese, was greatly enjoyed by the ladies.

Mr. and Mrs. Jack Paschall will return Saturday from a two-week's boat trip, stopping at various points in Old Mexico, going as far south as Mazatlan. They were accompanied by friends from San Francisco and write back glowing reports of their journey.

MRS. WEBSTER GIVES INSTRUCTION

Mrs. Lydia Webster, at her attractive "Ye Village Studio," on North Broadway, is giving instruction free on pottery decoration and china painting, if supplies are purchased from her and firing done in her kiln. This is the same policy as that of the Pasadena Crown Studio. Several ladies in Sierra Madre are interested in Mrs. Webster's class instruction, and she states that there is room for several more ladies to avail themselves of this opportunity.

MEN TO SPONSOR CARD PARTY

O. Bergien, J. Bergien, F. Bergien and N. Krier will sponsor a card party, bridge and 500, to be given Tuesday, March 4th at St. Rita's Auditorium. Many prizes will be given.

As the men are sponsoring this affair, a big time is anticipated. "Hot dogs" will feature the refreshments, it is announced.

"FASHIONS OF HOLLYWOOD" AT ST. RITA'S

Friday, February 21, J. A. Eliason presented "The Fashions of Hollywood" at St. Rita's Auditorium. John Hines and Miss Sally Blane, prominent in the moving picture profession, graced the occasion with their presence. The audience was more than delighted to be entertained by such prominent persons.

Mr. and Mrs. Vincent Fleming entertained Mr. and Mrs. Harvey Peat and Mr. and Mrs. Roy Peat of Walnut Park Sunday evening.

Mr. and Mrs. C. L. Twycross and sons, and Lucile Sparks were guests at Sunday dinner of Mr. and Mrs. Robert Clark, El Segundo.

Mrs. Margaret Blackwell and Marion Miller attended a reception for Mrs. Strohm at the Plaza Hotel, Hollywood, last Wednesday evening.

Novelty Numbers Will be Featured At Dance Saturday

Attention is called to the dance at the Woman's Clubhouse tomorrow night, at which novelty dance numbers will be featured in costume by Mrs. Marian Millar and Miss Gertrude Bandy.

Music for dancing will be furnished by Gustav Richard's orchestra and refreshments will be served by Mrs. Wm. Lees and Mrs. F. L. C. Roess. A large turn out is hoped for and a good time is promised to all. Tickets, for admission are fifty cents.

Patrons and patronesses are: Mrs. John H. Robertson, president of the Women's Club; Mr. Robertson, Mr. and Mrs. Wm. Lees, Mr. and Mrs. F. L. C. Roess, Mr. and Mrs. Phillip W. Senour, Mr. and Mrs. W. R. Humphries, Mr. and Mrs. Charles E. Klunk, Mr. and Mrs. Frederic S. Ackley, Mr. and Mrs. N. E. Hutton, Mr. and Mrs. Emile Smith, Mr. and Mrs. Waverly Pratt, Mr. and Mrs. J. L. Asbury, Mr. and Mrs. Fred Giebenow, Mr. and Mrs. Elmer A. Green, Mr. and Mrs. J. H. Fitzgerald, Mr. and Mrs. W. S. Hull and Mrs. Ethel Davis.

Great Kiln Brought To West Coast on Two Special Cars

When a new giant kiln arrived in Los Angeles recently, there were any number of problems that faced Union Pacific System engineers and freight traffic experts from over the country.

Each new piece of machinery manufactured brings about a number of problems to be solved before it is placed in operation on a paying basis.

The kiln was 100 feet long, 11 feet 2 inches in diameter and weighed more than 63 tons. How to ship such a piece of machinery from the Vulcan Iron Works, in Wilks-Barre, Penna., to the Decolite Company, all in one piece was the problem that confronted the engineers and traffic men.

At first technicians said it could not be done. However transportation experts differed. A general survey of the transcontinental route was started. The engineers worked for several weeks. Each curve, tunnel, and mountain pass on the Union Pacific System was diagramed. Through the mountain passes in several instances it was necessary to widen the cuts.

Then two specially built flat cars were built. The machinery was mounted on two "dollies," and started on its trip.

The huge kiln represented the largest single piece of machinery ever to arrive in Los Angeles. It was shipped to the Decolite Company's new plant in the Palo Verde Hills and will be used for the manufacture of insular earth by this firm.

If only Uncle Sam had exercised the mortgage-holder's right and forbidden any alterations in Europe without his permission.—Buffalo News.

COMING TO SIERRA MADRE

MISS GOSHORN TO LEAVE BEVERLY HILLS HI FOR SCHOOL IN PASADENA

Miss Doris Goshorn, daughter of L. R. Goshorn, who tomorrow becomes the new owner and editor of the Sierra Madre News, leaves her Wilshire home and friends with some degree of regret, but makes her bow in Sierra Madre with the enthusiasm of youth and the assurance of

new and delightful contacts.

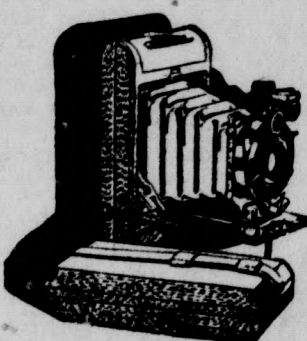

Miss Goshorn is at present attending Beverly Hills High, but will shortly transfer to Pasadena High. The picture below shows the beautiful home Mr. Goshorn built at the corner of Genesee and Eighth streets, one block south of Wilshire Boulevard, Los Angeles. The house was designed by Mr. Goshorn and was erected under his supervision. Leading architects and builders declare it to be unmatched. The placing of a "For Sale" sign in front of it, marking its abandonment, must have caused keen regret to its owner.

A SIGN TELLS THE STORY

State Picnics Coming Soon

Don't forget that our great Annual Roundup will be held in Sycamore Grove Park, Los Angeles, all day, Sunday, March 9, and that we want you to attend. Come early, stay late and visit with old friends. Coffee, sugar, cream will be supplied but bring your lunch or you can buy good ones in the park. County registers and headquarters open all day. For the program opening at two o'clock we have secured the famous Cotton Blossom Singers, colored boys from the Piney Woods school down in Mississippi. Ask questions of C. H. Parsons, Faber 3311, Hotel Rosslyn, or of the President, William O. Owen, Madison 4757.

"You Push the Button, We Do the Rest"

Motion Picture To Be Made Here Tuesday, March 4

A moving picture will be produced next Tuesday in Sierra Madre for the Wistaria Theater. Roselle Novello, well known film player, will lend her services to the production and it is planned that pictures will be taken of Miss Novello and leading citizens. The picture will be sponsored by merchants and business men and Mr. Coburn hopes to produce one each month in this manner, the film to be turned over to the chamber of commerce after showing in the local theater.

Merchants sponsoring the venture are S. R. G. Twycross, local agent Santa Fe Ry., real estate dealer and taxi transfer; Henry Greger, jeweler; J. Draman, shoe dealer; Roy Pickett, Wistaria Service Station; Sierra Madre Plumbing and Supply Co.; Sierra Madre Tailors; Joe Belohlavek, Central Garage; Gilmore's Stationery Store, and others.

Aviation is Topic at Club Luncheon

Speaker Says United States Is Surely Gain Lead in Air Lanes

That the United States made unprecedented headway in 1929 toward overcoming the lead that Europe gained in aviation progress during the period immediately following the World War, was the statement made by Calvin D. Smalley of the T.A.T.—Maddux Air Lines in his address on the "Romance of Aviation" delivered before the Sierra Madre Kiwanis Club Tuesday noon.

Dr. J. L. Woehler, acting as chairman of the day, introduced the speaker who described in a most interesting manner the various lines of development in air craft being made by this nation. He paid high tribute to France and Germany for their progress in aviation but said those nations had the advantage over this nation because of the fact that their governments pay a high percentage of the amount expended in order to encourage this development.

The remarkable round-the-globe trip of the Graf Zeppelin, under the guidance of Dr. Hugo Eckner, served to re-establish the faith of the world in the lighter-than air craft. A number of disasters in this country as well as in Europe had pretty well discouraged everybody in this type of airship, Mr. Smalley stated, but now the work of building dirigibles is making rapid headway. One is being built in Ohio which will have 6,500,000 cubic feet of air displacement, and will have a cruising speed of 90 miles per hour.

The same progress is being made along the lines of heavier-than air craft. Germany is building the New Junkers type of air plane with a wing spread of 160 feet and capable of carrying 100 passengers. Fokker is constructing the new F-32 with a passenger capacity of 32 and with many new improvements. The speaker said that Col. Lindbergh told him that Henry Ford is putting out a new airship with four motors instead of three and with these motors mounted on top of the wings instead of in front of the ship as they now are.

There are 440 municipally owned air ports in this country now, Mr. Smalley stated, besides 450 that are owned by private concerns. He blamed the attitude of the newspapers in "playing up" airplane accidents, for the general apprehension felt by the public toward this new method of travel.

Somebody has to pioneer in this work, he stated before any great progress can be made, and he pleaded for cooperation from the public in helping this country take its rightful place in aviation development. A remarkable feature that adds greatly to the safety of flying is the improvement made in radio equipment for air planes, which will enable the pilot to keep constantly in touch with the ground stations, regardless of weather conditions.

The glider is attracting the attention of many prominent aviators, including Col. Charles Lindbergh, particularly because of the possibility of its use as a means of landing passengers from the large dirigibles where there is no hanger or when the dirigible cannot take the time to make a landing for just one or two persons. Of course, these gliders, to be carried on the dirigible would have their pilots.

Considerable success has been achieved in perfecting instruments to enable the pilot to do "blind flying". That is, in heavy fogs or clouds, and at night when visibility is poor generally. A great impetus was given to passenger air transportation when Col. Lindbergh's recommendation was adopted, reducing the rates by airplane to conform approximately with those rates charged on trains. Most of the transcontinental planes are carrying capacity loads and sometimes second sections are necessary, Mr. Smalley stated.

Preceding the address, President Charles B. Klunk announced that the week beginning March 10 has been set aside by the District Governor of Kiwanis as "100 per cent week" when all members of the various clubs are asked to make an especial effort to attend one hundred per cent strong.

Tentative plans are being made to hold another of those highly successful "Ladies Nights" on March 18, according to President Klunk. Fuller details will be announced at the next meeting when Ralph Stewart, chairman of the advisory committee on census will talk to the club about the work along that line which will commence in April.

WOMAN'S SOCIETY IN ALL-DAY MEETING—

Next Tuesday, March 4, the Woman's Society of the Congregational Church will meet in the ladies parlors at 10:30 a. m. to sew for the Plaza Children's Home. At 2, business will be conducted. The ladies are to bring their own sandwiches. Coffee will be served.

D. C. Reib of Hayden Gardens left Sierra Madre Monday for San Francisco from whence he will sail for China for the Standard Oil Company.

NEW MODEL 1055 ATWATER KENT RADIO POPULAR

"I Want To Be Happy, But I Won't Be Happy, Till I Make You Happy Too," sings Bernice Claire in "No, No, Nanette." But she also adds that her Atwater Kent Radio, a brand new model of which now graces her home, does much to keep her happy as well as the one she keeps in her studio dressing room.

Zorraquinos Appears In Mission Play at Great Anniversary

Prominent among those who took a bow before a house packed full at \$100 per seat to celebrate the 3,000th performance of the "Mission Play" at San Gabriel last Monday night was Juanita Zorraquinos, premier dancer of the famous pageant drama.

Introduced by the author, John Steven McGroarty, who told of Juanita entering the Play cast as a child and growing up with the production Juanita smiled her prettiest, clicked her heels and blushed to the toes of her tiny slippers.

Evidently the slippers play an important part in Juanita's success for in her dressing room she treasures the worn out footwear she has used upon the stage. Two hundred fifty pairs of slippers are never to be forgotten way.

in the pile that she has accumulated since she began dancing as a very young girl.

According to Mr. McGroarty Juanita has appeared in every performance of the "Mission Play" except one. She had a good excuse that day as she married Juan Zorraquinos her dancing partner. So the setting of the all time theatrical record of 3,000 performances was also a record for Juanita who has appeared 2,999 times in her roles as a child of the Indians, a mere dancer and finally the leader of all the dancers.

Juan and Juanita, Carmen de Lara and Salvadore Chavez and thirty-five other dancers make the fiesta scene of the "Mission Play" a stirring revival of the old fiestas of the dons.

R. D. McLean, Irma Lee Campbell and a cast of 100 interpret McGroarty's masterful lines in a never to be forgotten way.

WHY BRING THAT UP?

You can cast out your line for bargains 'most anywhere, but, remember, it's the "catch" that counts. You'll always find real value for your money here and you will never risk disappointment.

ADIEU, KIND FRIENDS

WITH this issue of The Sierra Madre News, the paper passes into the hands of a new owner, and the present publishers are desirous, before relinquishing control, of expressing as nearly as possible in mere words the feeling of deep appreciation we have for the loyal support and pleasant personal relations enjoyed throughout our stay here.

Our action in disposing of this paper was prompted only by the desire to enter a large field, jointly, or else in individual fields of endeavor and we all (speaking for our families as well as ourselves) cherish the hope that if our immediate future should take us away from Sierra Madre, we ultimately may be privileged to return here to enjoy the living conditions which are just about as nearly ideal as may be found anywhere under the sun.

We are sincerely grateful for the kindly expressions of regret that we saw fit to make this change, but we find consolation in the fact that we are turning the paper over to a man of wide experience and recognized ability in the newspaper field. We trust that the citizens of Sierra Madre will lend him their heartiest support in order that this paper may continue to enjoy the place of high prestige it has long held, and to bring this charming little city rapidly to the forefront not only as a delightful place to live but as a trading center which will serve well a large surrounding territory.

Again we say thank you for all that you have done for us and please accept our wishes for a most pleasant and prosperous future for yourselves and your city.

JOE R. EASTWOOD
JOSEPH L. ASBURY

COME, YE THAT ARE WEARY

THAT Sierra Madre's reputation for an atmosphere of charm and restfulness is spreading rapidly and bringing fruitful results is indicated more and more every day by information that comes to the local Chamber of Commerce and to this newspaper office.

Frequent inquiries are being received from persons who want to locate here in business or wish either to buy or exchange property elsewhere in Southern California for Sierra Madre property. Mrs. McKee, who was in a position to locate most anywhere in the world, selected this city as the site for her beautiful new home on West Highland and just last Saturday announced the completion of the house with a delightfully different sort of "housewarming" given to the forty men who had helped in the construction. Such charming folks as Mrs. McKee are indeed an asset to the city and we want more of them.

Elsewhere in this issue is an announcement to the effect that a "Retreat" is to be erected on the Passionist Fathers' beautiful grounds at Monte Oliva, where hundreds of men will rest and solace in Sierra Madre's foothill isolation. This of course will be an economic asset to the town in itself and will also bring many visitors here, thus spreading the fame of our city far and wide.

The cultural advantages of Sierra Madre will be splendidly illustrated in the art gallery soon to open in the city hall. This project, under the direction of Mrs. Fred Griebnow, holds splendid possibilities for the future.

Sierra Madre's fine new school, and the beautiful church edifices, give ample evidence that the spiritual and mental development of young and old are amply provided for.

LET BABY MAKE NOISE

WHEN baby splits the eardrums of the family by hammering with a spoon on a tin pan or bangs on the floor with his wooden blocks, encourage him. It's music, or at least has musical potentialities. This latest discovery of child experts, announced in a recent issue of a famous ladies' journal, says that jazz is instinctive in children and that if the noises of youngsters are directed along rhythmic channels, musical talent can be developed in nearly every one of them.

In one experiment with children of preschool age, the two-year-olds began making improvised noises with kettle lids and wooden blocks, while a teacher played simple airs on the piano. At three years of age, real musical instruments instead of toys, were made available to the group, but the actual study of musical scores was not attempted. Within a short time the children were singing the melodies of Brahms' Lullaby and Schubert's Slumber Song. Later, children unable to carry a tune in kindergarten, were admitted to the group and soon learned the elements of melody.

♦ ♦ ♦ ♦

STANDARDIZING CITIES

THERE are 341 cities in the United States which have zoning ordinances in operation and in all probabilities the list will include a total of 1,000 before the end of 1930. Ten years ago there were only 38 cities with zoning ordinances.

"But this is only a part of the picture," says a bulletin of the United States Chamber of Commerce. "City plan commissions have been established in 751 cities and regional planning commissions in 18.

"Comprehensive city plans have been laid out or started in 326 cities. In 208 cities comprehensive thoroughfare plans have been started or completed.

"In 161 cities, park plans have been started or completed, and 155 playground have been established or are under way.

"The city of the future will not be the product of circumstance. It will, apparently, be built according to a definite pattern."

♦ ♦ ♦ ♦

CHIEF JUSTICE HUGHES

WASHINGTON seldom gets excited but its nerves were in a tingle when the senate program was under way to keep Charles Evans Hughes from donning the judicial ermine and wearing it as Chief Justice of the United States Supreme Court. Mr. Hughes has been acknowledged to be a "great man" so long that the capital and the country were amazed when the regular group of dissenters in the senate started to shake him down off his pedestal. Perhaps the fact that he was in danger of falling to the ground may increase his usefulness as the successor of William Howard Taft. It is dangerous for anybody to get too mighty in a republic like ours.

♦ ♦ ♦ ♦

THE NAVAL CONFERENCE

If the Naval Conference at London is a success will the Washington Government ratify its actions? No doubt about it—that's what everyone is saying now. But that is what everyone thought when the Treaty of Versailles was signed.

If anything is accomplished in behalf of world peace at London it is dollars to doughnuts that there will be a fight over it in the United States Senate.

♦ ♦ ♦ ♦

JOURNEYS OF COOLIDGE

Former President Coolidge has received expressions of the affections of the American people as he has passed through the South and across the country to California. You can't tell what is likely to happen by 1932, and should he "choose to run" the chances are that there would be lots of enthusiasm for the "dear old sure-foot." uw..ponè etaoenim now is the time fordda

Jack Mitchell Gives Facts On Big Dam

(Continued from Page One)

water is going to have on the temperature of the Southwest. It is said by some meteorologists that this effect will be to make the climate similar to that of Hawaii, differing in temperature not more than 10 degrees throughout the year.

The allocation of power and water is now amicably settled, according to the latest information I have from my editor, Al Cahlen, editor of the Las Vegas Evening Review Journal, and it is expected that work will start on the dam in the late spring or early summer.

And now a word for your information about Clark County wherein Las Vegas, the Gateway City to the dam, is situated. This county, according to my good friend, County Surveyor J. T. McWilliams, who has held that position for more than thirty years, is 99½ per cent undeveloped.

It is among the finest potential agricultural countries in the West. It has an artesian belt that stretches for a radius of 125 miles in every direction, and Las Vegas is almost the center of it. You cannot dig a foundation in that city without striking water. Power is the only thing needed to convert the greater portion of the vast and fertile country into one of the greatest agricultural districts in the South.

Aside from this, Clark County has every known mineral element necessary to manufacture, in profusion. There is gold, silver, lead, zinc, copper, gypsum, borax, salt, tungsten, mercury, radium, various clays, sandstone, chalks, iron and what have you.

From a scenic standpoint there is no other country which can offer the wonderful and varied places of interest. If you are inclined you may go, within a few hours ride, to the Hidden City, the Valley of Fire, or numerous stalactite caves, or if you want to work a little, dig up a mastodon hundreds of thousands of years old!

At the present time it would not be advisable for craftsmen or workmen to go to Las Vegas. There is little work there for the outsider, although there is plenty of building going on, it is all being done by local members of the various unions, for Los Vegas is a solid union town.

The investor, however, has a good chance. So, if you feel inclined, c'mon up and bring a little of that treasure which is sure to come in a little while, back to Sierra Madre.

High School Editors To Be Guests of Big University

Student journalists of high schools and junior colleges of the Southwest will be guests of the University of Southern California on Saturday, March 1, when the Eighth Annual Newspaper Day will be held on the Trojan Campus. Awarding of the Crombie Allen Plaque and two Trojan trophies to the best high school papers will be a feature of the noon luncheon in the Student Union building. Entries will be judged and graded on the basis of news content, editorials, features and make-up. Editors and prominent newspaper men of metropolitan dailies and weeklies in the Southwest will be guest speakers at the morning assembly. The afternoon session will be given over to a series of conferences for high school editors, business managers, and those interested in school annuals. A separate meeting for visiting newspaper editors has also been arranged.

Edison Company Has Million and Quarter Generating Power

Bringing the system generating capacity of the Southern California Edison Company to more than a million and a quarter horsepower, the second turbine generator of 133,000 h.p. capacity to be installed at the company's Long Beach steam station was placed in service yesterday. Geo. C. Ward, executive vice president of the company, opened the throttle of the giant machine for the first time.

The new generating unit, construction of which was begun in June, 1928, was completed at a cost of \$7,500,000. The first 133,000 horsepower unit, in the third plant of the company's steam station on Terminal Island, was placed in operation last year. Preliminary engineering studies are being made for the construction of a third unit of similar capacity. R. H. Ballard, president of the Edison company, said that the completion of the new steam generating unit gives greater assurance of a fully adequate power supply for Southern and Central California territory served by the Southern California Edison Co.

ONLY ONE

Is Supreme in Every Degree of Performance and That is Atwater Kent Radio

SUMMED UP in these startling words is the reason it is such a simple matter to distinguish between Atwater Kent's Screen-Grid radio and all others.

Others may provide good radio reception and there is no question of value received with most of them. But how much further Atwater Kent has always gone and goes today! For example:

Is there any other radio in the world that enables you to select a program without the slightest interference from another station?

Likewise, no other radio has the power to equalize the signal strength of weak and powerful stations...to bring in distant stations with the ease and clarity ordinary radio sets reproduce local broadcasts.

No other radio has the same perfected screen-grid circuit, the same improvements in tone reproduction and quietness of operation.

Furthermore, with the most scientific manufacturing methods...the largest production...greatest sales...and most economical distribution...Atwater Kent removes the necessity of taxing each set with a long profit and excessive overhead costs.

Thus Atwater Kent today, more emphatically than ever, outclasses all others whether of equal or greater price.

Fire Flames

By One of the Boys

A start for this column might be a comment on the weather or anything of that sort, but the weather is always fine to a fireman in Sierra Madre.

A number of the boys and two of our city dads were in attendance at the last meeting of the San Gabriel Valley Firemen's Association in Covina, last Thursday evening. It was with great pride that we introduced our city councilmen to the aggregation, not only because they are young and handsome, but because of their interest in fire-fighting work.

Speaking of councilmen makes me think of our next election, when we are to elect four councilmen and a city clerk. We have just about two more months to go, so let's hurry up and find all the personal faults and bad habits of every fellow that runs. If you don't like him, tell every body why you don't like him, and then add a few that you heard from the other fellow. If that isn't enough, add on a few. For instance, I know a councilman that mistakenly shot a cow for a deer. Well, I might add to that truth, that he can shoot bull, too. Just such things as this, you know, will put a little pep into the town. Election time is about the only time a fellow ever gets to see his neighbors and invariably they crawl out to make a kick about something.

Anyway, that has nothing to do with the fire department and we should not mince, but if politics or anything pertaining to such ever does enter, then "Fire Flames" will burst forth with a glorious red color and "holier" louder than ever was heard round an orange tree.

While attending a church service recently, we happened to notice on the program, "Thou Shalt Not Kill," the Pastor. Well, personally, there was no desire to kill the pastor, for his sermon was great, although some of the congregation might have felt like killing him.

One would think that the firemen were really going into politics and religion. Well, we are not.

The first aid crew were at practice last Friday evening. Jim Heasley came butting in and the crew pounced upon him with success. Evidently glad to have a victim, the boys "respirationed" him to a standstill. After each member of the crew shoved his ribs in for an astounding length of time, he was allowed to rise, but found he was unable. This (thought Capt. Joe Swanson) was a good time to practice some sort of a first aid lift, so they raised him from the floor and dropped him. Discovering that the fall had injured his feelings they then tied bandages around his head to keep down the swelling.

This is regular practice night and also the night of the American Legion Auxiliary's card party. Some of us have already bought tickets.

The rifle club seems to be doing a lot of "shooting off." Some of the fireboys are members of this club and as usual "shoot straight."

The Chief says that the starting time is still 7:30 p. m. All's well that ends, the Fire's Out!

Glowing Tribute Paid California Citrus Industry

Florida paid the California citrus industry a glowing tribute in the January issue of the Florida Grower, when the following statement was made in an advertisement by the Florida Citrus Exchange: "California has unified marketing in that the growers' cooperative organization controls approximately 75 per cent of the citrus output. During the 1928-1929 season, California shipped 88,010 carloads of citrus, sold f. o. b. for \$118,874,102. Florida shipped 62,877 cars, sold f. o. b. for \$54,844,806. Forty per cent more fruit returned California 116 per cent more money."

Recent reports from Florida show that the membership of the Florida Exchange is steadily growing and that the Florida growers are fast realizing the advantages of a unified cooperative plan. To Florida growers comparative 1929 citrus returns of the two states show one big advantage of the more stable marketing in California, as the result of 75 per cent or more of the fruit going through the California Fruit Growers Exchange.

Hot Lead

By WM. R. LASATER

Pasadena, Lamanda Park, Arcadia and Sierra Madre will furnish the entertainment and trimmings for the 18th district hospital day, Sunday, March 2, at the San Fernando Hospital. Sierra Madre is requested to bring the cigars. Pasadena will furnish the music, Lamanda and Arcadia will furnish other items of cheer and comfort for the buddies. All local members owning cars are requested to invite their friends whether members or not. We want this to be a never-to-be-forgotten turn out, so let's set this day aside for an unselfish cause. The procession will meet and start from the city hall, 1 p. m., Sunday, March 2.

Diligent Taylor, the busy little bee, makes hay while the sun shines, being official time-keeper and regulator of the sun, moon and stars. He flits about from job to job gathering time and new Legion members—when Vint Fleming happens to have application blanks on hand.

Flaming Youth ventured forth parading the main stem of the town to the day, all dressed up in a fiery red silk sweater. Now it's evident that the old boy's taste runs strongly to futuristic ideas in color combinations. I therefore suggest an apricot yellow windor tie and gray spats be added as a final touch to the ensemble.

It's terribly hot up about something. For days past he has been walking around the service station in a way that led me to believe his pockets were full of ancient eggs. Some of you fellows might look into the matter when you're making the weekly sick calls and report back next meeting night.

Hungry Ben, first in the grub line and last out; always an empty plate or an empty tummy. Wata woid; wata woid!

Try this on your radio, words by McRoberts: I have a new Hudson Strate Eight, as fine a piece of tinware as ever rolled on four wheels; its crabapple green with trimmings to match, silver fittings and thingamajigs that would make King Tut green with envy. Will do blankety-blank miles per hour and untold miles per gal. o' gas, and oil—just forget all about oil.

Listerine is in a very meditative mood these days, maybe it's spring fever.

Don't forget the Legion Auxiliary card party at the Woman's Club House Friday eve., Feb. 28. Tickets are 50. Help make this a success.

The Smoothest Highway To Town

... and more economically

TRY the Big Red Cars next time you go to town... Glide along on smooth steel rails...entirely free from traffic responsibilities and parking worries.

And save money, too. Low round trip fares make the Big Red Cars your most economical means of transportation. Also, Commutation and Monthly Pass fares are only slightly over one cent per mile. Compare this with your present travel costs...and remember you save parking fees also!

Besides, you reduce nerve strain, gain extra leisure for reading or relaxation...arrive quickly and safely at your destination.

Try this smoothest highway to town next time you go. Make an actual test, and know why thousands always ride the Big Red Cars.

The Playhouse at Pasadena Presents Armoured Train

The Pasadena Community Playhouse shows once more its interest in the development of drama when it produced "The Armoured Train" by Vsevolod Ivanov which is now in its second week at the Pasadena Community Playhouse.

The play is a true glimpse of the great movements, the awakening of the peasants of the Russian Revolution to the struggle for liberty which ends as we all know in the complete fall of the Czar and his family.

This play has to do with two of the leaders—one, Nezalosov, a young captain who has been reared in luxury and who has the horrifying spectacle of seeing all this class crumble and fall before his eyes; and Vershinin, the great peasant leader who sees dimly and idealistically the great goal which has been set for him.

The sound of revolutionary music fills the air and the rumble of guns and explosion of bombs as the continual accom-

paniment to the high condition in which we see appear under the translation. Many Undine Bradleempting the Annissimoff beautiful flower in the revolution they have in his locale for their garden, graciously assisted. This in all locale as a mat to him that s, not require setting and tyve in almost accurate. of the easiest

Newcomer Favors Rhythmic Dancing As Aid to Health

Body co-ordination, one of the great essentials of life is the secret of perfect health and therefore beauty. There are many channels through which we can attain this goal which we all strive for and the most enjoyable of all—outdoor sports followed by physical culture and the Rhythmic arts. We owe it to ourselves to be well and happy through perfect health we attain this priceless jewel, "happiness" that is the

than mere amusement; it truly is the means by which we attain a beautiful harmonious equilibrium in our lives. Marion de Beaulieu has made physical culture her hobby and delved into the depths of the rhythmic arts in many cities of Europe and so is regarded as a most welcome addition to Sierra Madre's list of artists. Saturday evening at the last dance of the Woman's club she will give an entertainment of the Gavotte Russian Court Majurka. Madame de Beaulieu will be assisted by one of her talented pupils, Miss Gertrude Bandy of our city.

Many Children Are Received at Orthopaedic Hospital

Eighty-nine child victims have been received in the orthopaedic hospital-school during the past eleven months. By special arrangements with the Police Department, this institution has opened its doors to emergency cases to serve all Southern California when the accident victim is a child, and the result is a severe injury involving the specific knowledge of an orthopaedic surgeon to adjust broken bones and see that muscles and nerves are in proper alignment. This is a very distinct service for the proper care in moments of this kind may save future deformity and much suffering.

Few people realize what such service involves. First there is the all night staff to be maintained in readiness—for the majority of these little patients have been brought in in the early evening or early morning hours, carried directly to the surgery for emergency treatment and have received the best care it was possible to give. One

hundred and seventy-eight closed reductions and one hundred and twelve open reductions have been perfected in the surgery upon these patients—these reductions mean fractures, bone settings, and such adjustments made as were necessary for ease, comfort and correction. Many of these children are from out of the state, members of tourist families traveling in the state and not a few are from towns and localities throughout Southern California, here as visitors. All have welcomed this development of a specialized service as an adjunct to the big service the Orthopaedic Hospital-School renders to the crippled children of Southern California.

EDUCATING MA
"Has your son's college education proved of any real value?"
"Yes, indeed, it's entirely cured his mother of bragging about him."—Pathfinder.

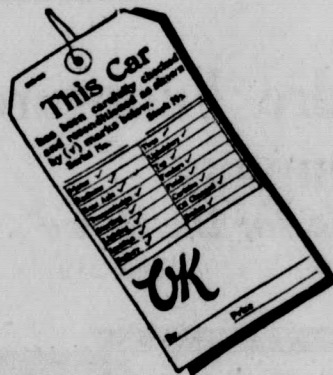

By means of a new local anesthetic, patients may listen in to radio while undergoing a surgical operation. Some, however, firmly demand chloroform.—London Opinion.

BIG SALE starts SATURDAY

USED CARS
—WITH AN OK THAT COUNTS

Here is a bargain event without parallel in the history of this community! This great spring clearance sale brings to bargain seekers a once-in-a-lifetime opportunity to secure famous used cars "with an OK that counts" at savings that will be long remembered.

Due to the tremendous popularity of the New Chevrolet Six, we have an unusually large stock of fine used cars. To clear our stock quickly, we offer these splendid cars at low sale prices that are nothing less than sensational.

Buy a car during this sale at many dollars below its normal price! Look to the red "OK that counts" tag as proof of its quality and dependability. This tag signifies that the car has been thoroughly reconditioned. Be sure to attend this sale early.

Wide Choice of Four and Six Cylinder Cars

MANY NOTABLES AT CAREW DINNER

Mr. and Mrs. Harold D. Carew had as dinner guests Sunday at their home, 419 Mariposa Avenue, artists, editors and well known people as Mr. and Mrs. Lee Shippey, Mr. and Mrs. Leslie Gaze, Mr. and Mrs. Oscar Rasbach, Mr. and Mrs. H. Randolph Wood, Wesley Fourtelotte, Miss Elira Altman, H. O. Davis, former editor of Ladies Home Journal, and Mrs. Davis; James Morgan, editor of the Boston Globe, and Mrs. Morgan; Mr. and Mrs. Mark Lee Lunt; Mr. and Mrs. Montague Glass; Homer Croy, author of "They Had to See Paris," and Mrs. Croy, and the host and hostess, Mr. and Mrs. Harold Carew.

MRS. GRAF ENTERTAINS AT BRIDGE LUNCHEON

Thursday, February 20, Mrs. Carl Graf entertained at her charming home, 355 East Grand View, at a 12:30 luncheon, followed by bridge, played at five tables. A profusion of spring flowers in pastel hues of sweet peas, snapdragons, daisies, were artistically arranged about the rooms. A Washington-birthday motif was used for table decorations and favors.

First prize at bridge went to Mrs. William Murphy, second to Mrs. J. E. Woehler, third to Mrs. Woodson Jones, and consolation, Mrs. Adam Mueller.

MRS. CORLETT ENTERTAINS AT LUNCHEON

Mrs. R. S. Corlett entertained on Washington's birthday at a 1 o'clock bridge luncheon for 28 friends, at her home, 65 East Mira Monte. The tables and rooms were attractive with a red, white and blue motif, sweet peas and African daisies. Favors were of patriotic nature. After a delicious luncheon bridge was played at seven tables.

Prizes were won by Mrs. Fred Horner, first; Mrs. E. H. Porter, second; and Mrs. Ole Hanson, third.

FRANK HARTMAN CELEBRATES BIRTHDAY

Mrs. H. Hartman entertained at a family dinner party Tuesday, honoring Mr. Hartman's birthday. The table was attractive with a patriotic motif.

Those present were Dr. and Mrs. Mrs. G. J. Hartman, Mr. and Mrs. J. D. Sparks and Mrs. Frederick Baker, all of Pasadena; Mr. and Mrs. Rudolph Hartman and family, the guest of honor, F. H. Hartman, and the hostess, Mrs. F. H. Hartman.

GUESTS AT PALM SPRINGS

Mr. and Mrs. E. E. Bacon returned Tuesday morning to their home, 240 East Alegría, after a week spent at Palm Springs for Mr. Bacon's health. The desert flowers, Mrs. Bacon states, are scarcely in bloom yet, but the almond trees around Banning are lovely now.

LOCAL THESPIAN IN PASADENA PLAY

On March 8th to 15th Miss Jessie Elizabeth Dunning will appear as Mrs. Robinson, a housekeeper, in the play "Betty Broadcasts," at the Pasadena Community Playhouse Workshop, Recital Hall.

MRS. LEHNER ENTERTAINS GUESTS

Mrs. Kathryn R. Keirsh and Mrs. Henrietta M. Baker were guests of their sister, Mrs. Geo. M. Lehner last week. Lemuel D. Boardman of Los Angeles was a week-end guest of Mrs. Lehner.

Mr. and Mrs. Will Middough were dinner guests of Long Beach friends Tuesday evening.

Mrs. W. D. Walker of Glendora was a guest Tuesday of her niece, Mrs. J. L. Asbury, attending the Colonial Tea at Mrs. Glidden's.

Mrs. Harvey Steinberger is entertaining her mother, Mrs. J. L. Hopper of Hughson, California, this week at her home, 48 South Sunnyside.

Mr. and Mrs. E. D. Burbank are entertaining Mrs. Burbank's aunt, Miss Ruby W. Smith of La Grange, Ill., for six weeks, at their home, 42 East Carter Ave.

Mrs. G. J. Hartman of Pasadena has invited several Sierra Madre ladies, as well as Pasadena, to be her guests at a bridge tea this Friday, at the Pasadena Golf Club.

Mr. and Mrs. Ole Hanson, Jr., and two sons have moved to their home in San Clemente for the spring and summer but will return to their home at Sierra Madre and Live Oak next winter.

MRS. L. KLAWITER PASSES SUDDENLY

Mrs. Lydia Klawiter, age 65 years, beloved wife of Rev. E. Klawiter, a retired Methodist preacher, died Friday evening at 10 o'clock, very suddenly, at the home of Mr. and Mrs. Theodore Koch, at 126 E. Laurel St.

Mrs. Klawiter had been in very good health up to the moment of her death. She was the mother of three boys: Leslie, George and Marvin.

Mrs. Klawiter was a wonderful Christian woman beloved by all and will be mourned greatly by all who knew her.

MR. AND MRS. MILLER RETURN FROM TRIP

Mr. and Mrs. "Tommy" Miller returned Saturday from an extended wedding trip through the South and East. They express great delight at being back in Sierra Madre and are at home in one of the charming Broadway cottages on West Central.

Mrs. William C. Hollar of Akron, Ohio, is having an extended visit with her niece and nephew, Mr. and Mrs. W. C. Gruit, 510 Manzanita. She will remain here during the winter season.

Mr. and Mrs. Oscar Rasbach were dinner guests Saturday of Mr. Rasbach's mother and father, Mr. and Mrs. William Schultze, at Vista del Arroyo Hotel in Pasadena.

Parent-Teachers Enjoy Interesting Program at Meet

Convening for the first time this semester, the Parent-Teachers Association observed Founders' Day with a birthday cake and a talk on the principles of the organization last Wednesday.

John Samuel Lacy, state chairman of school education, California Congress of Parents and Teachers, and author of "Fun in With Children," a daily column in the Pasadena Post, addressed a large and enthusiastic group of mothers. Mr. Lacy stressed the fact that we would accomplish infinitely more if we could utilize the tremendous teaching power of all fathers and mothers.

There has been an attempt in the past two years to have every parent visit the school at least once during the year in order to meet the teacher and to cooperate with her to give the child something more than the three R's to give guidance by practicing in the home the charming qualities of life, to have every parent a little quiet consultation on the work of the day to give praise where it is merited, to give kindly, helpful and understanding advice on work that is failing.

He also advised the practice of positive qualities and not to permit the child to express or find himself through the "don't system," which builds up a psychological barrier and to permit a child to build his own code founded on happiness; to stress service and cooperation and to nourish creative ability.

All this, he said, will tend to formulate a well-ordered life, inspire obedience, dependability, reverence, loyalty, courtesy, cleanliness, initiative, courtesy and all qualities of good citizenship.

At the close Mr. Lacy conducted a question box which was most interesting and instructive. Janet Stevenson Wood entertained most delightfully with two numbers, "Homing," Del Riego, and "Mountains," Rasbach.

Through the courtesy of Mrs. Tooney and Mrs. Croan, who have charge of the creative school of music in Sierra Madre, Mrs. Engart, director of youthful pupils of Pasadena schools, presented a marvelous and revealing program of original numbers, demonstrating an advanced method of teaching.

Those who took part were Carol Ingwall, Carol Howard, Gene Jacobus, Betty Bliven, Janet O'Neil, Dorcas O'Neil, Mary Jane Munson and Majorie Croan.

Tea and cake were served and a social time enjoyed with Mrs. George M. McRoberts and Mrs. Fred Pagenkopf as hostesses.

(Weekly Message)

Memories

In later years, when the blow has softened, and we return for a short visit to the home of our early years many scenes vividly appear.

It is quite comforting and a matter of the greatest gratification to recall that a certain crisis passed without any irksome incidents, because there was someone to serve with the fullest understanding.

Sunny Side Up at Monrovia Lyric, Starting Sunday

Janet Gaynor, co-featured with Charles Farrell in "Sunny Side Up," appearing at the Monrovia Lyric Sunday and Monday, was, upon completing high school at San Francisco, ambitious to become a business woman. Her step-father, however, urged her to seek a stage career, because of her natural talent. After six months in an office, she decided business wasn't all it was cracked up to be, and went to Hollywood. Her subsequent meteoric rise is now history.

"The Show of Shows" with 77 stars and one thousand Hollywood beauties, which has been appearing at the Lyric for a five-day stay, closes Saturday night. It is an all talking, singing, dancing, 100 percent Technicolor production, and is billed as "One Hundred Shows in One."

On March 6, 7 and 8, Victor McLaglan, Edmund Lowe and Lily Damita appear in that rollicking, thrilling picture, "The Cock-eyed World." You laughed when you imagined the dialog in "What Price Glory." You'll roar when you actually hear it in this coming attraction.

State Picnics Coming Soon

On next Thursday evening at 8 o'clock sharp the stage curtain will raise at the Lamanda Park Woman's Club House, 58 South Huntington Drive and "YE OLD HOOSIER SKULE" will be presented by a large company of well known hoosier entertainers. This presentation has been especially arranged for the Indiana folks and their friends.

Following this hour of laughter and school day thoughts will be the meeting and visiting of old time friends.

The meeting will then be turned over to the chairman of the dance committee and two hours of modern and old time dancing will be enjoyed.

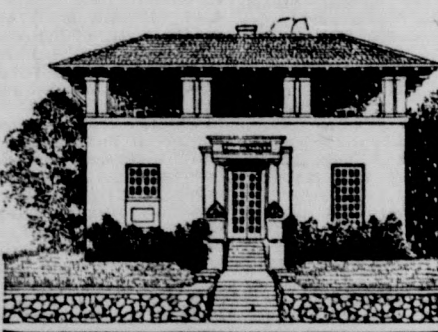

Remember the time and the place. Come and bring your friends.

On Thursday evening, February 27 at 8 P. M.

All who ever lived in the Keystone state are invited to a great picnic all day Saturday, March 1st, in Sycamore Grove Park. Go early and spend the day with the friends.

The Glad Column

By EARL MOYER
Member of California and American Gladiolus Societies.

There are many good cheap varieties that the beginner may purchase to start his or her garden and I would suggest that the following named be secured as a starter and then as you progress the more expensive ones may be added to your collection. The ones named are a wonderful selection to start your planting and I am sure that you will get a great deal of real pleasure in this group, the average price being ten to fifteen cents each: Los Angeles, shrimp pink; Rose Ask, ashes of roses; Byron L. Smith, dainty orange; Evelyn Kiriland, apple blossom pink; Jack London, deep salmon; Maiden Blush, maiden's cheek pink; E. J. Shaylor, deep rose; Halley, salmon pink; Herada, mauve purple; Joe Coleman, splendid red; Mrs. Frank Pendleton, pink-crimson blotch; Mrs. Francis Kink, flame pink; Prince of Wales, apricot; Virginia, scarlet; these and many others that I would be glad to give you a list of may be secured at a very reasonable cost.

Let us next take up the planting in a little detail. After you have the bed ready for planting I would suggest that you plan just how you would like to have your colors arranged, a trench should then be dug about six inches deep and if the ground is very dry a very light application of water may be run in the trench about 15 minutes before placing your bulbs. The bulbs should then be placed right side up at whatever distance apart you care to place them but never closer than the width of the bulb placed; as soon as the row has been completed carefully cover and lightly pack the earth down and place the next row. It is not advisable to plant the rows too close as room should be left between the rows to enable the working of the soil if it is found that it hardens, or to be able to walk between in pulling weeds. I should say that if you have the room in your garden the rows should be at least 12 to 15 inches apart, though it is not necessary if you are able to reach from both sides of the bed in weeding and cultivating.

As mentioned before DO NOT water very much while the bulbs are starting to grow but after they are up 12 to 15 inches they may be given all the water you

can give them. It is a good plan to arrange your beds so that you can flood the entire bed at one time and then arrange to do this about twice a week during the flowering season.

If you plant your bulbs a few each week, say every Saturday you will have flowers over a longer period than if you plant all at the same time. This will enable cut flowers to be in the house over a period of several months.

There is something in color and combination of color, that to the sensitive and attuned perception gives rise to sensations and emotions impossible of description by word or pen.

Such individual characteristics are possessed by all flower lovers in degrees. No two are attuned in exact unison, but many are happy possessors of this refined sensibility as to enable them to receive pleasure, enjoyment and satisfaction in such volume as to make for great personal happiness in intimate association with the beautiful in nature, and also as an incentive in physical activity and effort as to be productive of benefits impossible of acquisition in any other way.

For the purpose of satisfying the foregoing general and happy condition of all flower lovers, there is no general available and diverse product of floriculture

equal to the gladiolus.

To support this comprehensive claim, let me remind you that there are very few plants that produce the full range of primary colors in their inflorescence. This the gladiolus does.

In addition to the colors of red, white and yellow and blue, we have today innumerable varieties embracing every shade of these colors, to say nothing of endless and marvelous combinations of quality, beauty and value beyond the conception of the human mind. To these are added each year such increased diversity and attractiveness without possible limitation, as to satisfy every individual taste and every grade of refined and cultivated appreciation.

The value of high class and choice types in floriculture is therefore an influence to such temperaments, of value and satisfaction beyond estimate, and their relative capacity for such appreciation is the gauge of their measure of enjoyment.

This in brief counts some of the many qualities of the "people's flower," the plant of which is too well known and of such easy cultivation in most any locality as to need no introduction to the majority of people.

I think I should first say that almost anyone can successfully

grow glads, even though condition of soil and equipment appear unfavorable and inadequate. Many are deterred from attempting the culture of this beautiful flower because they think they have insufficient space in their garden, the soil not suitable, or they are not sufficiently experienced. This is unfortunate, because as a matter of fact glads do not require much space, will thrive in almost any soil, and are of the easiest culture.

There are, however, a few things that must, and must not, be done if one would be reasonably sure of success and it is my intention to point out as many of these as possible in the next article.

Woman's Club Notes

A large and interested group of men and women attended the afternoon session of the Woman's Club Wednesday to hear the discussion by Rev. Elbert W. Moore, colored minister of the Metropolitan Baptist Church of Pasadena, on "What Counts in America, Color or Character?" Rev. Moore was for five years superintendent of Negro work in the north under the American Baptist Home Mission Society, his work extending from coast to coast, and he has had much experience along racial lines in pastoral and community service work in many of the largest cities in the country.

He told yesterday of work he had done for the uplift of the Negro and of problems confronting his race in and around Southern California today. In the land of the free, the Negro is handicapped in his efforts to rise above the servant class, he declared, and called attention to the fact that no law can govern social equality. He related many interesting personal experiences and told of the starting of the association which has been of great aid to the negro, by Jane Adams, Josephus Daniels, former secretary of the navy, and other prominent people in the country who realized the need for such an organization.

Mrs. Helen A. Moore, wife of the minister, sang delightfully a group of Negro spirituals by Burleigh, accompanied at the piano by Mrs. Myrtle G. Hill.

A resume of Mrs. Moore's interesting experiences while studying music abroad appeared in a recent issue of the News. Mrs. Moore announced her numbers on the program as the outpourings from the hearts of uneducated Negroes, and gave a brief talk on the spirituals song.

Mrs. Emil Sturthal, program chairman of the club, introduced Mrs. Alice Cunningham, director of the Pasadena Association for the advancement of colored people, who in turn introduced the musicians. Bouquets of flowers, the gift of Miss Ella Shepard Bush, were presented to Mrs. Moore and Mrs. Hill at the close of the musical program.

Mrs. Ethel Davis and Mrs. J. M. Campbell presided at the tea table which was decorated in combination Valentine and patriotic motif. A large heart of sweet peas was centered in wide ribbon bows of red, white and blue. Mrs. Emil Smith, chairman of table decorations, was assisted by Mrs. Frank Lovell and Mrs. Waverly Pratt.

The Community Service and Garden sections met in the Osgood room of the clubhouse at 10 a. m. under the leadership of Mrs. A. A. Halsey, and the Book Review section met at 11.

Mrs. O. E. Manchester gave her interesting monthly "book talk" and conducted an open forum which has been established as a special feature of the section. "Flowers of Our Lost Romance" by Lummis, "King Spider" by Lewis, "Hans Frost" by Walpole and "All Our Yesterdays" by Tomlinson were among the books reviewed.

Phyllis Bottome's "Windstraws" was given much attention and "The Galaxy" by Susan Ertz, was especially recommended for fiction reading.

The development of humanities, from early Egypt, Rome and the Renaissance, to the development of thought as presented by Rabalais, was summarized briefly by Dr. Frederick W. Roman at his bi-monthly forum conducted at the Woman's Club Monday night.

Current events should plan an important part in the Forum, Dr. Roman said, but it is equally important and interesting to study the present in the light of the past, pointing out the whole growth in civilization, he believes. He drew attention to the constant progress of civilization from the time of the Crusades in the Eleventh century, the writings of Dante in 1301, Giotto's great art in Italy, the intellectual movement during the period of the Renaissance, the transition from the Middle Ages to the new world, the decline of art and morals in the Sixteenth century, with the battle for reconstruction of human values, and the subsequent commencement of certain reforms which brought new ideas in ethics and education.

The main discussion during the first hour was devoted by Dr. Roman to Francis Bacon, who gave to the world inductive logic, founded on observation of nature. John Locke, who followed with a richer philosophy of life, and the influence of Jean Jacques Rousseau on education and child psychology in "Emile."

A brief discussion was given to the birth control conference held in Los Angeles at which Dr. Roman was a speaker.

During the second period of the forum, George Lee, chairman of the finance committee of the Pasadena Town Meeting, spoke on the power control investigation of the Federal Trade Commission and the challenge to American educators.

Some interesting discussion followed with E. D. Burbank, lifelong associate of Ginn and company, as to how much of the Federal Trade Commission report was thoroughly established on the subsidizing of publishers. Much interest was shown by the audience in the discussion, which will be continued at a later forum.

Fourteen club members were in attendance last Friday at the Disfranchisement Federation meeting of the

Chinese theater in Hollywood. In the afternoon the group witnessed the current production at that theater. Those in the party were Mrs. J. Milton Steinberger, chairman of the local Drama section; Mmes. John H. Robertson, J. M. Campbell, L. Dietz, R. M. Finlayson, Charles B. Klunk, William Lees, Ethel Davis, Philip W. Senour, Frank Lovell, Waverly Pratt, J. H. Fitzgerald, Wm. Middough and Emily Smith.

Mrs. John H. Robertson and Mrs. William Lees attended Reciprocity Day at the La Canada Woman's Club yesterday, and Mrs. Robertson is attending the West Los Angeles Woman's Club Reciprocity program today.—Laura E. Cadmus, press chairman.

CHAPTER OF MATTHEW IS REVIEWED—An event of unusual interest occurred Wednesday morning at the home of Mrs. Ladd, West Mariposa Street, at 9 a. m. Helen King met with Bible in hand and chart to illustrate the 24th chapter of Matthew.

The enthusiasm exhibited at the close of the discussion proved the need and demand that this Bible Study should be a weekly occurrence.

Wednesday morning, March 5, at 9:30, the ladies will meet at Bethany Hall to continue this review under the direction of Mrs. King, and decide upon a definite time and meeting place. All women who are interested in God's work will be welcome and are urged to attend.

L. H. Gaillard has been confined to his home on Fairview Avenue from an injury to his foot received when a section of pipe fell on it when working on the construction on West Grand View last week.

NOTICE OF COMMISSIONER'S SALE ON FORECLOSURE—No. 231414. In the Superior Court of the State of California, in and for the County of Los Angeles.

MILDRED PRYBYLSKI, Plaintiff, vs. ARTHUR COX, et al., Defendants.

Under and by virtue of an order of sale and decree of foreclosure and sale, issued out of the Superior Court of the State of California, in and for the County of Los Angeles, on the 20th day of February, 1930, in the above entitled action, wherein the above named plaintiff obtained judgment and decree of foreclosure and sale against ARTHUR COX and ARTHUR COX, et al., Defendants, on the 14th day of February, 1930, for the sum of Thirty-six Hundred Forty-eight and 3/4 Dollars gold coin of the United States, plus interest and costs, which said judgment and decree was on the 17th day of February, 1930, entered and recorded in Judgment Book 721 at page 19 et seq. (to which judgment and decree reference is hereby made), I am commanded to sell at public auction all the above described premises, situate, lying and being in the City of Pasadena, County of Los Angeles, State of California, and bounded and described as follows, to-wit:

Sly 40 feet of Lot 20, Tract 8473, Maps Book 100, pages 58-59, and 12-100 Dollars gold coin of the United States, plus interest and costs, which said judgment and decree was on the 10th day of February, 1930, entered and recorded in Judgment Book 720 at page 197 et seq. (to which judgment and decree reference is hereby made), I am commanded to sell at public auction all the above described premises, situate, lying and being in the City of Pasadena, County of Los Angeles, State of California, and bounded and described as follows, to-wit:

Sly 40 feet of Lot 20, Tract 8473, Maps Book 100, pages 58-59, and 12-100 Dollars gold coin of the United States, plus interest and costs, which said judgment and decree was on the 10th day of February, 1930, entered and recorded in Judgment Book 720 at page 197 et seq. (to which judgment and decree reference is hereby made), I am commanded to sell at public auction all the above described premises, situate, lying and being in the City of Pasadena, County of Los Angeles, State of California, and bounded and described as follows, to-wit:

Sly 40 feet of Lot 20, Tract 8473, Maps Book 100, pages 58-59, and 12-100 Dollars gold coin of the United States, plus interest and costs, which said judgment and decree was on the 10th day of February, 1930, entered and recorded in Judgment Book 720 at page 197 et seq. (to which judgment and decree reference is hereby made), I am commanded to sell at public auction all the above described premises, situate, lying and being in the City of Pasadena, County of Los Angeles, State of California, and bounded and described as follows, to-wit:

Sly 40 feet of Lot 20, Tract 8473, Maps Book 100, pages 58-59, and 12-100 Dollars gold coin of the United States, plus interest and costs, which said judgment and decree was on the 10th day of February, 1930, entered and recorded in Judgment Book 720 at page 197 et seq. (to which judgment and decree reference is hereby made), I am commanded to sell at public auction all the above described premises, situate, lying and being in the City of Pasadena, County of Los Angeles, State of California, and bounded and described as follows, to-wit:

Sly 40 feet of Lot 20, Tract 8473, Maps Book 100, pages 58-59, and 12-100 Dollars gold coin of the United States, plus interest and costs, which said judgment and decree was on the 10th day of February, 1930, entered and recorded in Judgment Book 720 at page 197 et seq. (to which judgment and decree reference is hereby made), I am commanded to sell at public auction all the above described premises, situate, lying and being in the City of Pasadena, County of Los Angeles, State of California, and bounded and described as follows, to-wit:

Sly 40 feet of Lot 20, Tract 8473, Maps Book 100, pages 58-59, and 12-100 Dollars gold coin of the United States, plus interest and costs, which said judgment and decree was on the 10th day of February, 1930, entered and recorded in Judgment Book 720 at page 197 et seq. (to which judgment and decree reference is hereby made), I am commanded to sell at public auction all the above described premises, situate, lying and being in the City of Pasadena, County of Los Angeles, State of California, and bounded and described as follows, to-wit:

Rector, the Rev. L. C. B. Hill.
Residence telephone, Red. 19.

Quinquagesima, March 2:
Holy Eucharist, 7:30.
Church School, 9:30.
Eucharist with hymns, 11:00.
Ash Wednesday, March 5, Holy Eucharist, 7:30, preceded by the imposition of ashes.
Liturgy and Penitential Office, 10:00 o'clock.
A strict fast is ordered for this day by authority of the Church.

St. Rita's Church

Telephone Main 140.
Rev. Hyacinth Clare, C.P., Pastor
318 North Baldwin

Sunday Masses, 7 and 9 a.m.

Christian Science

Corner Highland and Hermosa.
First Church of Christ Scientist of Sierra Madre is a branch of the Mother Church, the First Church of Christ Scientist, in Boston, Massachusetts.

9:30 a.m.—Sunday School.
11:00 a.m.—Sunday service. Subject for March 2, "Christ Jesus."

8 p.m.—Wednesday, Testimony meeting.
Reading room open Monday, Wednesday, Friday, from 2 to 4.

Congregational Church

Rev. Arthur O. Pritchard, Pastor.
Convers Twycross, Supt.
Mrs. Myrtle Hill, Pianist.
Gustav Rihard, Orchestra Leader.

The Seventh Commandment will be the topic of the sermon at the morning service.

A musical service by the Junior Choir and the orchestra will be given at 7:30 p.m. Mr. Pritchard will speak on "Followers of the Way."

A Church family dinner will be held on Wednesday at 6:30 p.m. Mr. and Mrs. Asbury and Mr. and Mrs. Eastwood will be guests of honor. There will be several short addresses on the Philippines.

On Tuesday at 10:30 a sewing meeting of the Woman's Society.

Bethany Church

William Duncan Ogg, Pastor.

11 a.m.—Morning worship. Sermon theme, "Faith and Word of God." A primary fundamental to the happiness of life. Choir anthem. Solo by Mr. Roy Stevens.
6:30 p.m.—Our young people have secured a speaker, Rev. George Sanderson, who has been a missionary with the Sudan Interior Mission for 22 years. He has taken many pictures of the country and peoples, has had them made into picture slides and will show them at this service. A cordial welcome is extended to everybody to avail themselves of this rare opportunity of hearing Mr. Sanderson and seeing the picture.

7:30 p.m.—Evening service. The pastor's subject of discussion will be "The Jew in the Light of Prophecy." Mr. Stevens will sing.

Mrs. Grace Wages Funeral Was Held At Famous Church

Funeral services for Mrs. Grace Madelyn Wages, 30, wife of Roy C. Wages, 89 East Alegria, who died at the family residence Saturday night was held Wednesday afternoon at the Little Church of the Flowers, Forest Lawn Cemetery, Glendale. Rev. M. D. Kneeland officiated.

Mrs. Wages was born February 22, 1900, in Halifax, Nova Scotia. She came to Los Angeles ten years ago, and had been a resident of this city for the last five and a half years. When her health permitted she attended the Church of the Ascension, and had many friends here.

Mrs. Wages is survived by her husband, a 6-year-old daughter, Barbara Marie, and her mother, three brothers and a sister, who reside in Los Angeles. Arrangements for the funeral were in charge of Ray A. Grant.

The least a good party man can do, when the tariff bill at last is finished, is to hint that it fell on its head when it was little.—Passaic News.

Forty volumes of missing laws have been found in Siam. It seems that the Orient has more than its share of national disasters.—Florence (Ala.) Herald.

City Engineer Makes Report On Water Job

Replacing of Mains Is Progressing Rapidly, Says Lynde

With the aid of the comprehensive report on the water system of Sierra Madre, made by Consulting Engineer Paul Kressley, Earl J. Lynde, city engineer and superintendent of the street and water department, is proceeding as rapidly as possible with the work of putting the city's water system in first class condition. The following activities and improvements are included in a report made by Mr. Lynde to the street and water committee of the council:

Construction unit Number 1, consisting of 15 men, under the supervision of A. M. Udell, has just completed the installation of 1650 feet of eight-inch main eastward from the bridge on East Grand View. This main will be supplied from Mira Monte Reservoir until the north easterly part of the city above Grand View is built up when it will be cut over to a higher reservoir.

Construction unit number 2, consisting of 15 men, under the supervision of H. H. Holland, is laying a 12-inch main from Grove Street Reservoir, a total of about 5750 feet. By putting this line in Lima Street instead of Grove and connecting to the existing 10 inch gravity line at the head of Lima we are able to save 400 ft. of 12-inch pipe and still retain the operating features of the system.

A bed of large boulders was encountered on Lima, north of Grand View, some of which weighed as much as 2 tons. Blasting with dynamite had to be done before several could be removed, while others were removed with chain blocks.

After completing the main on East Grand View unit number 1 moved to West Grand View where an 8-inch main reduced to a 6 inch being laid and connected to the 12 at Lima and Grand View. As soon as this connection is made water will be supplied on West Grand View at increased pressure and volume.

With the completion of the 12-inch main from Grove Street Reservoir to Mira Monte, the little booster which pumps from Mira Monte to Grove will pump through this line against a greatly reduced friction head, supplying more water at a great saving in power cost. Later on this 12-inch main will be extended easterly to connect with a 16-inch line from the pumping plant and also to a 14-inch line from the tunnels thus hooking up the Grove Street Reservoir to a direct supply from both the tunnels and the pumping plant. The present supply to Grove requires three operations before reaching the reservoir: (1) Pumped from wells to settling basin. (2) Boosted to Mira Monte. (3) Boosted to Grove. The new lines will permit boosting direct from settling basin to Grove, thus eliminating the transfer at Mira Monte.

Installation of the lines in the Canyon and Marlborough Terrace will be started within 10 days and pushed through to completion.

The monthly pay-roll on this new construction work amounts to approximately \$3800.00. All labor was recruited from residents of Sierra Madre with the exception of two expert welders and their helpers who, since their employment, have moved their families to our city and have established homes here. All regular employees of the Water Department are citizens of the U. S. or have been issued first papers by the government. All but two of the 33 men on construction work are citizens. These two, both residents of Sierra Madre, are preparing application papers for citizenship.

The 1500 Lin. feet of 16-inch riveted steel pipe from Consolidated Steel Corporation, which was contracted for May 27, 1929, was delivered last month. Five hundred feet of this has been installed as a discharge line from pump 31 to the settling basin to replace the 8-inch line formerly used. This installation eliminates a 20-foot friction head in the line which represents a saving in power of approximately \$408.00 per year, or \$4080.00 in ten years. This will pay for the installation of the pipe (estimated at \$800.00 including labor and materials) and save enough to purchase a new pump when the present one wears out.

During the last five years the cost of removing, testing and recasting meters has averaged \$1031.00 per year. A study of the cause necessitating these repairs revealed that sand in meters was responsible for about 70 per cent of the trouble. The increased surface water supply since the rain this month permitted the cleaning of all reservoirs in the system. All were found in good shape except the settling basin on East Central from which we removed about four tons of sand. This proved true the suspicions that the sand was coming from the wells and that the settling bins in the weir box were not functioning properly. Accordingly the weir house was re-designed and two additional sand traps constructed. This will remove the greater part of the sand before it ever enters the system and in a short time should reduce the cost of meter repairs considerably.

Merchants Want Limit On Parking

Association Instructs Committee to Confer With Council

Vote Will Be Taken on Days for Special Closing at March Meeting

Action was taken by the Sierra Madre Merchants Association at a meeting Monday of last week, whereby a committee was authorized to appear before the city council at their next meeting to recommend the passing of an ordinance limiting the parking of cars in the business section of this city for a period of more than two hours at a time. The merchants maintain that the practice of many people in parking their cars on the downtown streets all day seriously inconveniences customers who come down in their cars to shop.

The committee consists of Robert Davies, president of the association, Joe Sadler and Albert Wheeling. A new committee was appointed to investigate special advertising, and soliciting schemes which are brought before the merchants from time to time by outside people. The members of this committee are: Joseph L. Asbury, chairman, Tom Solury and Albert Wheeling.

Six days were discussed by the Merchants Association for a general closing of Sierra Madre business houses, but the matter will not be voted upon finally until the first Monday evening in March when the merchants meet again. Any business man, whether he is a member of this organization or not, is invited to be present and express his opinion on the matter.

The "feed" committee consisted of Robert Davies and Charles Klunk who pinch hit for Milton Steinberger who is still compelled to refrain from his regular activities on account of a long illness. After partaking of hot tamales that sizzled and coffee that would put the ace of spades to shame, the merchants went home to "impatiently await the coming of the dawn when they could leave their restless couches."

Sierra Madre Art Exhibit Opens Mar. 8

(Continued from Page One)

the Los Angeles Examiner, he established a studio of designing and illustrating in San Francisco.

It will be of interest to recall that Mr. Hawxhurst illustrated, wrote and published the first booklet advertising Sierra Madre. During all this time, while developing his well known inventions, he has painted, but it is only recently that he has exhibited. His canvases, during the Sierra Madre artists' exhibit at the Los Angeles City Hall, created much comment.

Combining invention and art, Mr. Hawxhurst has recently created in art technique something absolutely new in its history, the leather brush. For more than 30 years Mr. Hawxhurst has been experimenting for some happy medium between the palette knife and brush, which has now been solved by his invention. Artists who are using his method are most enthusiastic over effects possible.

An example of Mr. Hawxhurst's leather brush work, a canvas called "A Bit of Spring," will be shown in this exhibit.

Concert Tonight at Monrovia High School Building

Tonight, Feb. 28, at 8:15 in the auditorium of the Monrovia high school, there will be a concert given by the high school music department. It is the second of the three musical programs of the year and both vocal and instrumental organizations will be participating. The high-lights of the program will be Saint-Saens' "Dance Macabre," played by the concert band, and Tchaikowsky's "March Slave," played by the high school symphony orchestra.

-- School Notes --

(By Harold Keltz, Metropolitan Staff Writer)
New System in Use.

The P. J. C. Chronicle is now operating under a new system: that of a staff composed of two sections—editorial and typographical. The new system speeds up production and eliminates duplication of work.

The new staff is hard at work and the paper is already showing improvement.

Joe Weiss, of Sierra Madre, who has taken a part in all publications at J. C. is copy editor. Harold Weight, managing editor last semester, is the new editor.

Fencing Popular.

Fencing is gradually becoming a popular sport at J. C. Seven fellows are out for the team, and with the help of their expert coaches, ought to rate high in the So. Cal. Fencing League. Officers appointed.

Practically all appointive offices were filled at the first meeting of the new Board of Representatives, held February 11.

Helen Mulholland, Chronicle editor last semester, is secretary of Publications, Watson Endicott is Secretary of Athletics; Herman Smith, Finance; Geraldine Anderson, Oral Arts; Gloria Gartz, Activities; and Jack Plotkin, Records. Ned Stirling, and Marcia Smith are Associate Justices, and Mildred Marshall and Alba Pece are clerks of the student body and the court, respectively. Opera to Be Presented.

"The Red Mill," by Victor Herbert, is the title of the musical comedy to be presented by P. J. C. on March 27, 28, and 29.

This year's production is the first to be a musical comedy, and should go over big with the students because of humorous situations and play on words.

J. C. Wins Debate.

P. J. C. was declared victor over Phoenix (Ariz.) J. C. in a one-judge debate, Friday, February 7.

The local squad had the affirmative side of the question, which was "Resolved: That the installment plan of buying is detrimental to the welfare of society."

New Students enter.
The Sierra Madre registration at the Junior College was increased when nine greenhorns walked up the front steps and registered with their counselors last Monday. The new students are: Gerald Wark, Lindsay Greig, Ruben Weiss, Ernestine Manning, Rudolph Lichnog, Donald Barnfather, Dorothea Cox, George Smith, and Harold Keltz. Benefit Fund.

A show consisting of "The Night Ride," featuring Joseph Schildkraut, a comedy, and three acts of vaudeville was held in the Junior College Auditorium on Wednesday, February 19, as a benefit to cover up the deficit incurred when the Kamehameha College of Hawaii football team

came to Pasadena a year ago. The show was a success for all concerned, and the administration can now feel free from all monetary worries.

Lectures by Mrs. Patterson to Be Given Here Again

Mrs. Ethel Patterson will again come to Sierra Madre to give a series of talks during the Lenten season. This will be the Fourth course in "The Practice of the Presence of God" and those who have had the privilege of attending her previous classes will not want to miss any of these new lectures. A cordial invitation is given to all who would like to turn their thoughts God-ward and get spiritual help. It is not denominational in any respect and the Congregational Church of Sierra Madre has given the use of its building for the classes. The classes will be held from 10 to 11 a. m. every Monday, during Lent, beginning March 3rd and ending April 7th, in the primary room, southwest entrance of the Congregational Church at Central and Hermosa.

Monastery to Rise On Monte Oliva, Work Starts Soon

Announcement was made to a News representative that in the near future a Monastery and Retreat House will be erected on ground owned by the Passionist Fathers, adjacent to Bailey Canyon, in the northwest part of the city.

This house will be the retreat for laymen who will come from all parts of Southern California. An enthusiastic meeting of men was held last Sunday, and another meeting will be held in the near future, at which further details of the project will be discussed.

The Goodwill Industries Is Efficient

Many Jobs Secured for the
Needy of Southern
California

At the annual meeting of the board of directors of the Goodwill Industries of Southern California held February 24, F. H. Blair, superintendent, revealed that 2881 different persons had applied for jobs during the year 1929, and that to these people 22,268 jobs were supplied thru the offices of the Goodwill Free Employment Bureau. Four thousand, six hundred eighty-seven of these jobs were apart from the Goodwill Industries; the rest were a part of the work of Goodwill itself in turning "Waste into Wages, and Junk into Jobs."

Examination of the Goodwill records reveals that 21 different nationalities and 16 different religious affiliations are represented among the Goodwill employees, and that at the present time, of the total number employed, 60 per cent are American, 23.4 per cent are Mexican, and the balance are scattered among other nationalities.

It is the aim of the Goodwill Industries to provide "Not Charity, But a Chance," jobs instead of doles to every handicapped or needy man and woman who comes seeking its help, and that, without any regard to race, color or creed. It operates through the medium of the Goodwill Bag, a large burlap bag bearing its name and seal, which is loaned to housewives and others as a convenient receptacle for the things which the family no longer needs, such as discarded clothing, shoes, hats, caps, newspapers, magazines, rags, etc. When a housewife has a bag full, she uses the telephone or mails the card which is attached to the bag to call the Goodwill truck. The bag is carried to the Goodwill plant at 342 North Main Street, Los Angeles, where its contents provide the raw materials for the labor of about 400 people every day. The product of this labor is sold thru the Goodwill stores to provide the money necessary for the wages of the worker. Every dollar of the store sales goes for that purpose.

Superintendent Blair has set forth that at the present time Goodwill is in very serious need of more clothing and larger quantities of newspapers, magazines, etc., in order to prevent the laying off of men and women who greatly need the job which only Goodwill can supply. Friends can help just now by calling Mutual 5331 for the Goodwill truck to come for any such materials no longer needed.

Two Sierra Madre Misses Recipients Scholarship Pins

Two of the four students of the February graduating class of the Woodrow Wilson Junior High School who were given gold scholarship pins were from Sierra Madre. The award is for being in the scholarship society six semesters out of eight. It is the highest honor that the school awards its students.

Those who received these pins were Dorothea Cox, Marian Kravetz, Dorothy Disbrow, and Ethel Johnston.

The awards were presented at the graduation exercises by Miss Mildred Scott.

FOUR SQUARE GOSPEL

The past meetings held in the Woman's Club house have been so well attended and successful that they continue. Services will be held as follows: 7:30 Sunday. Evangelistic service, with splendid musical program and stirring gospel message; 7:30, Thursday, Mid-week evangelistic service.

Harry Goodier Receives Honor In Navy School

Word has just been received by Mr. and Mrs. Anthony G. Goodier of 673 West Grand View, that their son, Harry P., was graduated from the U. S. Navy Hospital Corps Training School at San Diego with the third highest record ever attained at that school.

Harry, who has just passed his twenty-second birthday, has many friends and former schoolmates in this vicinity who will be delighted to hear of his success. Out of the class of twenty-three graduates, only six were honor men and the highest two of these were Harry Goodier and R. F. Elkins, who will remain at the school as mail orderly and laboratory assistants, respectively.

"My Idea of the Navy" was the title of a signed article written by Harry Goodier, which appeared in the school publication of February 15. This is sent out in large numbers by the Navy for recruiting purposes.

Well Known Artist Proves Skill as An Expert Mechanic

When a machine-turned bolt on the News newspaper press broke last week, just as the last run was off, the "back-shop" faced a considerable delay in getting the part from the factory, with much resultant embarrassment.

Vic Hill, however, stated the matter could easily be taken care of here in Sierra Madre. He took the parts away that afternoon and the following day returned with a perfect duplicate, which when placed on the press functioned perfectly.

Victor explained that the work was done by Harry Hawxhurst, celebrated painter and inventor, who has a complete machine shop at his home, where he turned out all the parts of his many inventions.

NEWS WANTADS PAY

So many clean cotton rags have been brought to the News office in response to a liner in a recent issue that the shop is supplied for some time to come. Please bring no more "clean cotton rags" to the News office until further notice—if any.

ON THEIR METTLE

The master, to impress on his pupils the need of thinking before speaking, told them to count fifty before saying anything important and one hundred if it were very important.

Next day he was speaking, standing with his back to the fire, when he noticed several lips moving rapidly.

Suddenly the whole class shouted: "Ninety-eight, ninety-nine, a hundred. Your coat's on fire sir!"—Boston Transcript.

The committee for untangling metaphors is hard at work now on Senator Nye's supreme effort: "I feel confident that this troop of pirates in the grain trade, these economic leeches in the Northwest, these barnacles on the grain-marketing ship will be unhorsed."—Detroit News.

At the last session of Congress public interest was in bills for the control of floods; at this session it is in control of the flood of bills.—Virginian.

Quotations embroidered on sheets are the latest Paris notion. They should, however, be verified, as misquotations are conducive to insomnia.—Punch.

For Sale—New baby carriage, bought in error; never been used; too busy with politics.—Liberty (N. Y.) paper.

SURPRISE MUTUAL

Cook—"Why, you're the same man I gave a piece of mince pie to yesterday!"
Tramp—"Yus, but I 'ardly expected to find the same cook ere to-day!"—London Opinion.

Public School Week Is Set for Week of April Twenty-first

California's eleventh annual observance of Public Schools Week, which has come to be recognized as a community event thruout the state, will be celebrated this year during the week of April 21st, according to a proclamation issued in San Francisco by Chas. M. Wollenberg, grand master of Masons of California.

The week was originally instituted as a Masonic function in an effort to aid the public schools because of a shortage of teachers due to war and post war conditions. The observance has gradually increased in public interest until a record last year was made of over 500 meetings thruout the state held in school auditoriums and public halls and participated in by parent-teachers associations, city, county and state officials and civic, commercial and fraternal organizations generally.

The Guidance Council of the Woodrow Wilson junior hi school has recently been organized. From each home room was chosen a representative for the council which will meet every two weeks. In 8-1, Frances Hora was chosen as a member of the council and Carrie Hora was chosen from 10-1. Treva Scott was chosen as honorary member from 10-2. Carrie Hora was elected secretary for the group.

Public Health School Founded In California City

Announcement of the foundation of one of the first public health schools in the United States is made by Dr. John L. Pomeroy, county health officer, as a step toward the securing of more efficiently trained public health officials.

The new school of sanitary instruction is established at the New East Side County Health Center in Belvedere Gardens for the purpose of the training of sanitary inspectors and quarantine officers first entering the service of the county health department. D. A. S. Baker, director of the East Side Health Center, has been appointed dean of the school which will begin classes this week.

The course of study will consist of sixty hours of didactic work and eighteen field trips.

The total lack of concentrated public health instruction in California has retarded the efficiency of the administration of public sanitation and the enforcement of health laws to a considerable degree, Dr. Pomeroy says. There is an outstanding need for an accredited college of public health and preventive medicine, he declares, that is as complete in its course of study as is a law college.

FOR EASTERN READERS

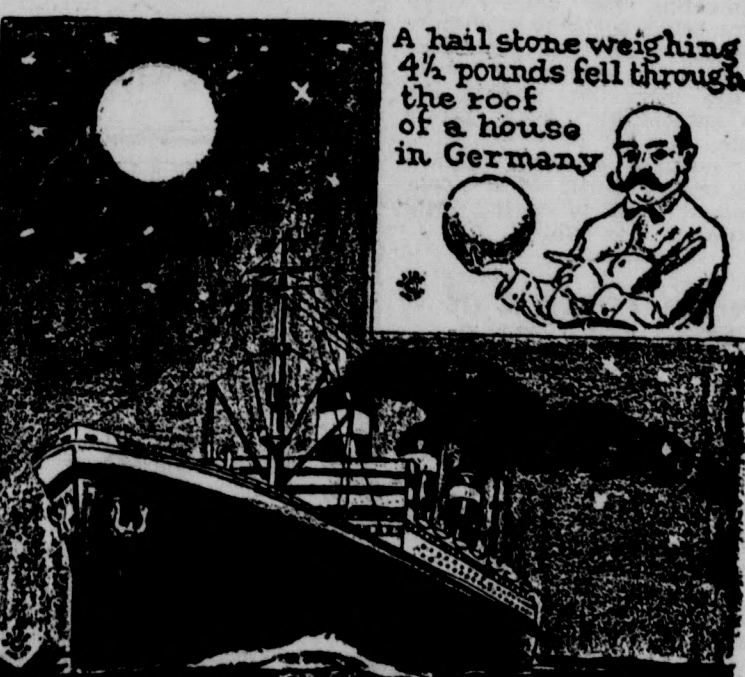

After hoisting a few long tons of snow off the family driveway, a man takes little interest in an article on the digging of the Nicaragua canal.—Minneapolis Star.

Chicago's treasury has become painfully depleted. Treasurers become that way when confronted with a Big Bill.—San Diego Sun.

Anyway, that royal wedding has served to remind the world that Italy still has a royal family.—Florence Herald.
